RE: Memorializing the United States Congress to Pass the Improving Small Business Administration (SBA) Engagement on Employee Ownership Act

Honorable Legislators:

Employee ownership is a powerful tool for building stronger, more resilient businesses. Studies have shown businesses with employee ownership models experience higher productivity, increased employee retention, and greater financial stability. Yet, many small business owners and employees are unaware of the opportunities available to them for shared ownership or cooperative structures. Expanding knowledge and access to these programs is critical for fostering equitable growth and supporting local economies.

In Monroe County, we offer several support options for small businesses, including technical assistance, networking, entrepreneur workshops, financial counseling, and outreach programs. While these programs currently serve a broad range of small business needs, H.R. 5778 provides an opportunity to expand these proven strategies to include education and resources specifically for employee ownership and cooperative models.

H.R. 5778: Improving SBA Engagement on Employee Ownership Act, introduced by Representative McIver, seeks to strengthen outreach and education on employee ownership through the Small Business Administration (SBA). This legislation recognizes the importance of cooperative business models and encourages federal coordination to promote them.

Specifically, the bill requires the SBA Administrator to participate in working groups, meetings, and other engagements hosted by federal agencies to discuss employee ownership and cooperative business models. This ensures the SBA remains actively involved in initiatives to advance shared ownership and learns best practices across the nation.

Further, H.R. 5778 amends the Small Business Investment Company (SBIC) program to expand outreach to investors and limited partners, ensuring potential stakeholders are informed of opportunities to support employee-owned businesses. The legislation also mandates the SBA implement outreach and assistance programs under the Small Business Employee Ownership and Cooperatives Promotion Program, within 180 days of enactment. These steps

will provide tangible support for small businesses exploring employee ownership and cooperative models.

By improving awareness and access to these programs, H.R. 5778 empowers employees to take an active stake in their workplaces, strengthens regional economies, and encourages long-term business sustainability. We urge the members of the House of Representatives and the Senate to pass H.R. 5778 and call on the President to sign it into law and ensure more American workers have the opportunity to share in the success of their companies.

RE: Memorializing the United States Congress to Pass the Better Care for Domestic Violence Survivors Act

Honorable Legislators:

Domestic violence remains a pervasive public safety issue in the United States. Nearly one in four women, and one in nine men, experience physical violence, sexual violence, or stalking at the hands of an intimate partner. Domestic violence survivors often interact with healthcare providers in the aftermath of trauma, making these professionals critical first points of contact. Yet, studies indicate a significant portion of healthcare providers lack the training to recognize and respond effectively to domestic violence cases. The absence of standardized trauma-informed and victim-centered training limits providers' ability to intervene effectively, leaving survivors without the care they need.

H.R. 5702: Better Care for Domestic Violence Survivors Act seeks to address this critical gap by establishing a federal demonstration program to train healthcare providers in trauma-informed and victim-centered approaches. This legislation ensures medical professionals who interact with survivors are equipped to identify and treat cases of domestic violence with sensitivity, expertise, and cultural competence.

Specifically, the bill authorizes the Attorney General to award grants to support national, regional, and local victim-services organizations, enabling them to implement trauma-informed, victim-centered practices. Trainings will include strategies for complex cases involving drugs and alcohol, strangulation, disabilities, and LGBTQ+ survivors. Further, grant recipients will partner with local research institutions to assess the effectiveness of training programs, collect data on outcomes, and ensure only best practices are shared broadly.

By equipping healthcare providers with the knowledge and resources to respond effectively to survivors, H.R. 5702 strengthens immediate care, enhances long-term recovery, and fosters safer communities. We urge Congress to pass H.R. 5702 and call on President Trump to sign the bill into law.

Subject: **Memorializing the Ohio House of Representatives and Governor Mike DeWine to Pass and Sign Senate Bill 295, "Regards the Timeline for Restoring Competency in Criminal Cases"**

Honorable Legislators:

Cleveland Police Officer Jamieson Ritter, a native of Webster, New York, a 2015 graduate of McQuaid Jesuit High School, and a Syracuse University alumnus, was tragically murdered in July 2024 while responding to a warrant involving De'Lewante Hardy. Hardy had reportedly killed his grandmother days earlier. He had been declared incompetent to stand trial in the fall of 2024 and ordered into in-patient psychiatric treatment for schizophrenia.

It was later revealed that Hardy had been refusing his psychiatric medication for months and that the behavioral health facility responsible for his treatment failed to report this noncompliance for five months. Under current Ohio law, the competency-restoration timeline does not pause when a defendant refuses required medication. As a result, prosecutors lacked the ability to ensure that Hardy's competency could be restored within the mandated one-year period. Prosecutors have warned that this loophole allows defendants to intentionally run down the clock to avoid prosecution.

This devastating tragedy highlights the serious flaws within Ohio's current competency-restoration framework. Under existing law, when a defendant charged with a felony or a misdemeanor offense of violence is found incompetent to stand trial, and the court determines that competency can be restored within one year, the court must order treatment for up to one year. However, because the law does not stop the timeline when a defendant refuses medication, individuals can deliberately decline treatment until the statutory period expires. Once that occurs, courts may be forced to dismiss charges entirely. This structure allows violent offenders to evade accountability simply by refusing their prescribed medication.

Senate Bill 295 provides a necessary and responsible solution to this problem. The bill extends the competency-restoration period from one year to five years, giving courts the time needed to restore competency in defendants charged with serious or violent offenses. It also

408 County Office Building · 39 West Main Street · Rochester, New York 14614
Phone: (585) 753-1922 · Email: RepublicanConference@monroecounty.gov

requires mental health facilities to notify the court within fourteen days if a defendant refuses to comply with a treatment plan. If a defendant declines medication, the restoration timeline is paused and does not resume until treatment restarts. The bill further provides that if a defendant regains competency but is later found incompetent again, the restoration period resets and must be treated as a separate determination.

Senate Bill 295 closes a dangerous loophole that allows violent offenders to manipulate the justice system. Permitting defendants to avoid prosecution by refusing treatment is unacceptable and poses a clear threat to public safety. For these reasons, we urge you to join us in calling upon the Ohio House of Representatives and Governor Mike DeWine to pass and sign Senate Bill 295.

Subject: **Memorializing the New York State Legislature to Reintroduce and Pass S.2282-A, "Pretrial Risk Overview for Threat Evaluation, Custody, and Treatment (PROTECT) Act"**

Honorable Legislators:

In May of this year, the Codes Committee of the New York State Senate voted down S.2282-A, known as the "Pretrial Risk Overview for Threat Evaluation, Custody, and Treatment (PROTECT) Act," on a party-line vote of 8-4 with one Democrat voting "aye with reservations." This important legislation, sponsored by Senator Pam Helming and co-sponsored by almost the entire Republican Conference of the Senate, would provide courts with an evidence-based tool to assess a defendant's risk of reoffending, threat to public safety, and likelihood of appearing for trial. By introducing a structured and data-driven approach, the PROTECT Act strengthens the fairness and consistency of pretrial determinations while maintaining the integrity of the justice system.

The PROTECT Act would direct the Division of Criminal Justice Services to develop a validated risk assessment instrument for use by judges in pretrial proceedings. This framework would support informed decisions on whether to release or detain a defendant and under what conditions, ensuring that each case is evaluated based on objective criteria rather than solely on the charged offense. The legislation seeks to balance the rights of defendants with the community's need for safety and confidence in judicial outcomes.

Under the proposal, courts would be required to conduct risk assessments for individuals arrested for new felony or Class A misdemeanor offenses while already on pretrial release. This provision addresses a growing concern about repeat offenders committing additional crimes while awaiting trial. By incorporating a structured review process, the PROTECT Act would help prevent unnecessary risks to the public and provide courts with the tools needed to respond effectively when patterns of reoffending emerge.

The legislation also recognizes the importance of mental health intervention. It affirms that individuals who present an immediate danger to themselves or others may be referred for psychiatric

evaluation and treatment in accordance with state law. This approach reflects a broader commitment to addressing underlying behavioral health issues within the justice system, promoting both rehabilitation and community safety.

Reintroducing and passing the PROTECT Act would represent a meaningful step toward restoring public trust in New York's criminal justice system. It offers a fair, research-based alternative to blanket policies that may overlook individual circumstances or community impact. By equipping judges with the tools necessary to make informed, responsible decisions, the State can enhance both safety and justice for all New Yorkers. Therefore, we ask that you join us in urging the New York State Legislature to take back up the PROTECT Act to defend our communities from potentially dangerous reoffenders.

Subject: **Memorializing the New York State Legislature to Pass And Governor Kathy Hochul To Sign Assembly Bill A00179 "Authorizes the Commissioner of Environmental Conservation to Establish a Stream Maintenance and Flood Control Program; Allows for the Local Governing Body of a County to Elect a Local Law Providing For a Local Option Into Such Program; Provides For the County to be Responsible For Performing the Work Outlined In an Approved Stream Maintenance and Flood Control Plan"**

Honorable Legislators:

In New York State, flash flooding is responsible for the single highest amount of weather-related property damage. According to NOAA, more than 2.5 billion dollars in property damage occurred from flash flooding between 2020 and 2024. From 1996 through 2024, flooding was the third leading cause of severe-weather-related deaths in New York State. Earlier this year, two individuals in New York City lost their lives due to flash flooding caused by intense rainfall. Among the five categories of severe weather tracked since 1996, flash flooding has increased the most, with the first, second, and sixth highest annual incidents occurring within the last four years. This 2.5 billion dollar total also does not include the additional 1.2 billion dollars in damage caused by regular (non-flash) flooding.

Despite this escalating threat, federal flood control plans developed in coordination with New York State primarily focus on major rivers. Smaller local streams and creeks have been largely overlooked, even though they pose significant risks to surrounding communities. Data shows that thousands of properties across New York are at risk of flooding. In Monroe County alone, 28,121 properties are projected to be at risk of flooding over the next 30 years, representing 10.6 percent of all properties in the county. Localized communication and coordination between State agencies and County Departments of Environmental Services are essential to identify and address vulnerabilities in smaller waterways so they can be better maintained and strengthened to protect at-risk properties. Assembly Bill A00179 is necessary to advance this work.

408 County Office Building · 39 West Main Street · Rochester, New York 14614
Phone: (585) 753-1922 · Email: RepublicanConference@monroecounty.gov

Assembly Bill A00179 would authorize the Commissioner of the Department of Environmental Conservation, in consultation with SEMO and local Soil and Water Conservation Districts, to establish a Stream Maintenance and Flood Control Program that any county may opt into by local law. Counties choosing to participate would work with DEC, SEMO, and local Soil and Water Conservation Districts to develop a Stream Maintenance and Flood Control Plan. This plan would evaluate weather patterns, analyze existing conditions, and incorporate necessary hydrological data to create a schedule of short- and long-term stream maintenance and reclamation activities designed to prevent flooding while also improving aquatic habitat within county waterways.

Once DEC approves a county's plan, the county would oversee implementation of the scheduled maintenance and flood control activities. When maintenance activities need to occur on private property, the entity performing the work, whether it be the county, town, village, or local Soil and Water Conservation District, would notify the property owner and request permission to enter and perform the required work. The bill also adds a new Section 120-dd to the General Municipal Law to permit necessary work to proceed without owner permission if the local governing body determines that failure to perform the repairs poses an unwarranted risk to the health, safety, or welfare of local residents.

Therefore, we respectfully urge the New York State Legislature to pass, and Governor Kathy Hochul to sign, Assembly Bill A00179. This legislation will provide the State and counties with the tools, structure, and authority needed to better understand and manage localized flooding, strengthen and maintain critical waterways, protect aquatic and fishing habitats, and create a safer environment for the homeowners and taxpayers we serve.

Subject: **Memorializing the New York State Legislature to Pass and Governor Kathy Hochul to Sign Bills S.1866 and A.4799, Establishing the Green Alert System for Missing Military Members**

Honorable Legislators:

Often times, our nation's heroes return home from military service carrying heavy burdens – including various mental illnesses, post-traumatic stress disorder, or suffer from a traumatic brain injury. These illnesses can overlap with each other, creating the perfect storm for military members and veterans to experience trauma, change their behavior, and avoidance of others; leading to many having difficulty readjusting to civilian life. Through this difficult change, veterans and military members across the United States can go missing. In order to better support our military members and veterans, the New York State Legislature has introduced a bill focused on searching for missing military members who suffer from mental illness, post-traumatic stress disorder, or a traumatic brain injury.

New York State Senate Bill S.1866 and Assembly Bill A.4799 would amend the veteran's services law in order to establish a "Green Alert System" for eligible military members. Through these bills, the State would develop and implement a statewide system for military members who have elected to join the system, suffering from mental illness, post-traumatic stress disorder, or traumatic brain injury. Similar to the current Amber Alert system, the Green Alert System would work through a collaborative effort between the Department of Transportation, law enforcement agencies, radio and television broadcasters, and the general public to safely recover missing military members across the State. However, for military members to be eligible for this system, they must opt-in to the system by providing legal documentation of their mental illness through a family member or legal guardian to prove their eligibility, ensuring accuracy for issuing Green Alerts.

Please join me in calling upon the New York State Legislature to pass, and Governor Kathy Hochul to sign Senate Bill S.1866. and Assembly Bill A.4799, Establishing the Green Alert System for Missing Military Members. Our military members suffering from mental illness, post-traumatic stress disorder, or traumatic brain injury deserve support to ensure their safety and well-being. By passing these bills, we can ensure that when a military member goes missing, law enforcement and the community will use all available resources to safely return our heroes.

Subject: Amend the 2026-2031 Capital Improvement Program and the 2026 Capital Budget to Add a Project Entitled "Baggage System Improvements" at the Frederick Douglass - Greater Rochester International Airport; Authorize Financing for the Project; and Authorize a Contract with C&S Engineers, Inc. for Design Services

Honorable Legislators:

I recommend that Your Honorable Body amend the 2026-2031 Capital Improvement Program and the 2026 Capital Budget to add a project entitled "Baggage System Improvements" at the Frederick Douglass - Greater Rochester International Airport; authorize financing for the project in the amount of $6,500,000; and authorize a contract with C&S Engineers, Inc. in the amount of $480,850 for design services.

This project will complete improvements to the existing flat baggage plate carousels in the baggage make-up area and the replacement of the slope plate in-bound baggage carousels located in the baggage claim. The project will include the removal of the existing flat and sloped plate carousel units in their entirety and replace them with new units that are longer and will have wider plates. Also included in the project are upgrades to the controls to tie the 1989 vintage carousels into the newly upgraded controls for the remainder of the baggage handling system. Finally, isolated patching and repairs to flooring and finished areas that are associated with the retrofit work will be completed.

The project will provide passengers flying to and from the Frederick Douglass - Greater Rochester International Airport with an improved and more efficient baggage handling system that will help to make their flight and travel experience easier. The nine airlines currently serving the Airport are fully in support of this project.

This project will be funded by a Federal Aviation Administration grant of 90%, a New York State Department of Transportation grant of 5%, and a local share of 5%.

This action is a Type II Action pursuant to 6 NYCRR § 617.5 (c)(1) ("maintenance or repair involving no substantial changes in an existing structure or facility"), and is not subject to further review under the State Environmental Quality Review Act.

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Part 1 of the EAF indicates that the site contains or is near wetlands and a floodplain. This action pertains solely to the sale of a tax foreclosed surplus property on Euler Road in the Town of Ogden. No wetlands or floodplains will be impacted by the sale itself. Any future development of the parcel will be subject to local zoning and building codes, as well as all applicable federal and New York State wetland and floodplain regulations.

Accordingly, no wetlands or floodplains will be impacted from this sale and the action will not result in any significant adverse environmental impacts.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. This action pertains solely to the acquisition of easements necessary to replace the culvert on Peck Road. No wetlands or remediation site will be impacted by the acquisition itself. Any future development will be subject to local zoning and building codes, as well as all applicable federal and New York State wetland regulations.

The Trimmer Road Landfill remediation site is listed under the State Superfund Program and is located approximately 2,600 feet south of the project. Remediation at this site has been completed.

Accordingly, no wetlands or remediation site will be impacted from this acquisition and the action will not result in any significant adverse environmental impacts.

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

This project involves the Renovation and Revitalization of the Friendship Building and Grounds, involves the renovation of approximately 42,000 square feet within Monroe Community Hospital, including the first and third floors of the Friendship building and associated exterior playground area. Critical Environmental Area
The proposed action involves the disturbance of previously developed land. Due to proximity to the Genesee River, the site is within a Critical Environmental Area (areas within 100ft of the Genesee River). This action will not disturb or have an adverse impact on the Critical Environmental Area.

Impact on Historical and Archaeological Resources
The mapper noted that the site is near a potential Archeological site, however the land has been previously disturbed and has been developed since at least 1935, minimizing any potential environmental effects associated with this activity.

National or State Register of Historic Places
A review was requested by the State Historic Preservation Office (SHPO), who concluded in their March 23, 2022 letter: It is the opinion of the New York SHPO that no historic properties including archaeological and/or historic resources will be affected by this undertaking.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Subject: Increase and Improvement of Facilities in the Northwest Quadrant Pure Waters District Entitled "NWQPWD – NWQ WRRF Electrical Improvements" Project; Amend the 2026 Capital Budget to Add the Project; and Authorize Financing

Honorable Legislators:

I recommend that Your Honorable Body approve a request to establish an Increase and Improvement of Facilities in the Northwest Quadrant Pure Waters District (the "District"), in the amount of $7,200,000, consisting of a capital project entitled "NWQPWD - NWQ WRRF Electrical Improvements;" amend the 2026 Capital Budget to add the project; and authorize financing.

The total Increase and Improvements of Facilities in the District is comprised of the "NWQPWD - General Pump Station, Interceptor and Treatment Plant Improvements" project ($950,000); "NWQPWD - NWQ WRRF Electrical Improvements" project ($7,200,000); the "NWQPWD – Aeration Improvements" project ($3,000,000); and the "NWQPWD – Preliminary Treatment Improvements" project ($800,000), for a total estimated cost of the Increase and Improvement in the amount of $11,950,000. The "NWQPWD - General Pump Station, Interceptor and Treatment Plant Improvements;" "NWQPWD – Aeration Improvements;" and "NWQPWD – Preliminary Treatment Improvements" projects are under consideration by Your Honorable Body as companion referrals.

The Increase and Improvement of Facilities is necessary to provide funding for the "NWQPWD - NWQ WRRF Electrical Improvements" project. This project includes phased replacement of the facility's primary electrical system building, transformers, switchgear, and busses along with distribution cabling to all major processes. This project is necessary to maintain reliability and continuity of services to District customers.

The estimated cost of the improvements is $7,200,000. The actual debt service obligation for the additional cost of the project, as projected in future years, could potentially result in an increase of $2.88 to the future annual charges of the average District ratepayer. However, the actual impact is typically reduced through retirement of previous debt and other offsets to the District's capital charge levy. Based on an average water consumption of 60,000 gallons, the total annual charge for both operation & maintenance and capital to the District ratepayer in 2025 is $151.36.

Portions of the project may become eligible for financing through the New York State Water Pollution Control Revolving Loan Fund. It is therefore requested that the County have the ability to submit applications and take any necessary steps to utilize this financing vehicle if it becomes available.

Monroe County Legislature - December 9, 2025

The specific legislative actions required are:

1. Hold a Public Hearing for the proposed maximum amount to be expended for an "Increase and Improvement of Facilities in the Northwest Quadrant Pure Waters District."

2. Following the Public Hearing, adopt a resolution approving the "Increase and Improvement of Facilities in the Northwest Quadrant Pure Waters District" at the maximum amount to be expended.

3. Amend the 2026 Capital Budget to add a project entitled "NWQPWD - NWQ WRRF Electrical Improvements" in the amount of $7,200,000.

4. Authorize financing for the project entitled "NWQPWD - NWQ WRRF Electrical Improvements" in the amount of $7,200,000, subject to the approval of the State Comptroller, if required.

5. Authorize filing of applications and execution of Project Financing Agreements and any other necessary documents by the County Executive or the Director of Finance – Chief Financial Officer, as appropriate, for participation in the New York State Water Pollution Control Revolving Loan Fund under the applicable laws of New York State to finance all or a portion of the project.

This action is a Type II Action pursuant to 6 NYCRR § 617.5 (c)(1) ("maintenance or repair involving no substantial changes in an existing structure or facility") and (2) ("replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building, energy, or fire codes unless such action meets or exceeds any of the thresholds in section 617.4 of this Part") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this project, consistent with authorized uses, will be available in the capital fund 2137 once the financing authorization herein is approved, and in any capital fund(s) created for the same intended purpose. The local funding for this project will ultimately be provided by the Northwest Quadrant Pure Waters District user fees. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Increase and Improvement of Facilities in the Rochester Pure Waters District Entitled "RPWD – CSOAP Tunnel System Improvements" Project; Amend the 2026 Capital Budget to Add the Project; and Authorize Financing

Honorable Legislators:

I recommend that Your Honorable Body approve a request to establish an Increase and Improvement of Facilities in the Rochester Pure Waters District (the "District") in the amount of $4,800,000, consisting of a capital project entitled "RPWD - CSOAP Tunnel System Improvements;" amend the 2026 Capital Budget to add the project; and authorize financing.

The total Increase and Improvements of Facilities in the District is comprised of the "RPWD - General Collection System and Treatment Plant Improvements" project ($2,500,000); the "RPWD – CSOAP Tunnel System Improvements" project ($4,800,000); the "RPWD FEV WRRF – Biosolids Handling" project ($2,000,000); and "FEV – Primary Scum Collection Improvements" project ($1,000,000), for a total estimated cost of the Increase and Improvement in the amount of $10,300,000. The "RPWD - General Collection System and Treatment Plant Improvements;" "RPWD FEV WRRF – Biosolids Handling;" and "FEV – Primary Scum Collection Improvements" projects are under consideration by Your Honorable Body as companion referrals.

The Increase and Improvement of Facilities is necessary to provide funding for the "RPWD - CSOAP Tunnel System Improvements." This project includes specific improvements to the CSOAP tunnel system that were identified by a multi-disciplined maintenance and engineering team under a long-range planning effort. Improvements include, but are not limited to, drop shafts, bridge structures, overflows, and appurtenances in all CSOAP tunnels. Improvements will include replacement, rehabilitation, and/or reconstruction of components of the tunnel system to maintain and improve hydraulic capacity and ensure structural integrity of the system and its appurtenances. The project is necessary to maintain the reliability and continuity of services to District customers.

The estimated cost of the improvements is $4,800,000. The actual debt service obligation for the additional cost of the project, as projected in future years, could potentially result in an increase of $2.24 to the future annual charges of the average District ratepayer. However, the actual impact is typically reduced through retirement of previous debt and other offsets to the District's capital charge levy. Based on an average water consumption of 60,000 gallons, the total annual charge for both operation & maintenance and capital to the District ratepayer in 2025 is $362.01.

Monroe County Legislature - December 9, 2025

Portions of the project may become eligible for financing through the New York State Water Pollution Control Revolving Loan Fund. It is therefore requested that the County have the ability to submit applications and take any necessary steps to utilize this financing vehicle if it becomes available.

The specific legislative actions required are:

1. Hold a Public Hearing for the proposed maximum amount to be expended for an "Increase and Improvement of Facilities in the Rochester Pure Waters District."

2. Following the Public Hearing, adopt a resolution approving the "Increase and Improvement of Facilities in the Rochester Pure Waters District" at the maximum amount to be expended.

3. Amend the 2026 Capital Budget to add a project entitled "RPWD - CSOAP Tunnel System Improvements" in the amount of $4,800,000.

4. Authorize financing for the project entitled "RPWD - CSOAP Tunnel System Improvements" in the amount of $4,800,000, subject to the approval of the State Comptroller, if required.

5. Authorize filing of applications and execution of Project Financing Agreements and any other necessary documents by the County Executive or the Director of Finance – Chief Financial Officer, as appropriate, for participation in the New York State Water Pollution Control Revolving Loan Fund under the applicable laws of New York State to finance all or a portion of the project.

This action is a Type II Action pursuant to 6 NYCRR § 617.5 (c)(1) ("maintenance or repair involving no substantial changes in an existing structure or facility") and (2) ("replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building, energy, or fire codes unless such action meets or exceeds any of the thresholds in section 617.4 of this Part") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this project, consistent with authorized uses, will be available in the capital fund 2134 once the financing authorization herein is approved, and in any capital fund(s) created for the same intended purpose. The local funding for this project will ultimately be provided by the Rochester Pure Waters District user fees. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Increase and Improvement of Facilities in the Rochester Pure Waters District Entitled "FEV - Primary Scum Collection Improvements" Project; Amend the 2026 Capital Budget to Add the Project; and Authorize Financing

Honorable Legislators:

I recommend that the Administrative Board of the Rochester Pure Waters District approve a request to establish an Increase and Improvement of Facilities in the Rochester Pure Waters District (the "District") in the amount of $1,000,000, consisting of a capital project entitled "FEV -Primary Scum Collection Improvements;" amend the 2026 Capital Budget to add the Project; and authorize financing.

The total Increase and Improvements of Facilities in the District is comprised of the "RPWD - General Collection System and Treatment Plant Improvements" project ($2,500,000); the "RPWD – CSOAP Tunnel System Improvements" project ($4,800,000); the "RPWD FEV WRRF – Biosolids Handling" project ($2,000,000); and "FEV – Primary Scum Collection Improvements" project ($1,000,000), for a total estimated cost of the Increase and Improvement in the amount of $10,300,000. The "RPWD - General Collection System and Treatment Plant Improvements;" "RPWD – CSOAP Tunnel System Improvements;" and "RPWD FEV WRRF – Biosolids Handling" projects are under consideration by Your Honorable Body as companion referrals.

The Increase and Improvement of Facilities is necessary to provide funding for the "FEV - Primary Scum Collection Improvements" project for the Frank E. Van Lare (FEV) Water Resource Recovery Facility (WRRF). This project includes upgrades to a critical process which is at the end of its useful life.

The estimated cost of the improvements is $1,000,000. The actual debt service obligation for the additional cost of the project, as projected in future years, could potentially result in an increase of $1.24 to the future annual charges of the average District ratepayer. However, the actual impact is typically reduced through retirement of previous debt and other offsets to the District's capital charge levy. Based on an average water consumption of 60,000 gallons, the total annual charge for both operation & maintenance and capital to the District ratepayer in 2025 is $362.01.

Portions of the project may become eligible for financing through the New York State Water Pollution Control Revolving Loan Fund. It is therefore requested that the County have the ability to submit applications and take any necessary steps to utilize this financing vehicle if it becomes available.

Monroe County Legislature - December 9, 2025

The specific Administrative Board action required is to submit a request to the Monroe County Legislature to approve an Increase and Improvement of Facilities in the Rochester Pure Waters District consisting of a capital project entitled "FEV - Primary Scum Collection Improvements," at an estimated cost of $1,000,000; amend the 2026 Capital Budget to add the project; and authorize financing.

This action is a Type II Action pursuant to 6 NYCRR § 617.5 (c)(1) ("maintenance or repair involving no substantial changes in an existing structure or facility") and (2) ("replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building, energy, or fire codes unless such action meets or exceeds any of the thresholds in section 617.4 of this Part") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this project, consistent with authorized uses, will be available in the capital fund to be created once the financing authorization herein is approved, and in any capital fund(s) created for the same intended purpose. The local funding for this project will ultimately be provided by the Rochester Pure Waters District user fees. No additional net County support is required in the current Monroe County budget.

I recommend that this matter receive favorable action by the Administrative Board of the Rochester Pure Waters District.

Subject: Increase and Improvement of Facilities in the Irondequoit Bay South Central Pure Waters District Entitled "IBSCPWD – South Central Trunk Sewer Improvements" Project; Amend the 2026 Capital Budget to Add the Project; and Authorize Financing

Honorable Legislators:

I recommend that Your Honorable Body approve a request to establish an Increase and Improvement of Facilities in the Irondequoit Bay South Central Pure Waters District (the "District") in the amount of $1,800,000, consisting of a capital project entitled "IBSCPWD - South Central Trunk Sewer Improvements;" amend the 2026 Capital Budget to add the project; and authorize financing.

The total Increase and Improvements of Facilities in the District is comprised of the "IBSCPWD - General Pump Station and Interceptor Improvements" project ($450,000); the "IBSCPWD – Thomas Creek Pump Station Improvements" project ($400,000); the "IBSCPWD – Irondequoit Bay Pump Station Improvements" project ($1,500,000); and the "IBSCPWD - South Central Trunk Sewer Improvements" project ($1,800,000) for a total estimated cost of the Increase and Improvement in the amount of $4,150,000. The "IBSCPWD - General Pump Station and Interceptor Improvements;" "IBSCPWD – Thomas Creek Pump Station Improvements;" and "IBSCPWD – Irondequoit Bay Pump Station Improvements" projects are under consideration by Your Honorable Body as companion referrals.

The Increase and Improvement of Facilities is necessary to provide funding for the "IBSCPWD - South Central Trunk Sewer Improvements" project. This project includes general improvements of conveyance and capacity of localized sections of the trunk sewer. The project is necessary to maintain the reliability and continuity of services to District customers.

The estimated cost of the improvements is $1,800,000. The actual debt service obligation for the additional cost of the project, as projected in future years, could potentially result in an increase of $2.91 to the future annual charges of the average District ratepayer. However, the actual impact is typically reduced through retirement of previous debt and other offsets to the District's capital charge levy. Based on an average water consumption of 60,000 gallons, the total annual charge for both operation & maintenance and capital to the District ratepayer in 2025 is $132.63.

Monroe County Legislature - December 9, 2025

Portions of the project may become eligible for financing through the New York State Water Pollution Control Revolving Loan Fund. It is therefore requested that the County have the ability to submit applications and take any necessary steps to utilize this financing vehicle if it becomes available.

The specific legislative actions required are:

1. Hold a Public Hearing for the proposed maximum amount to be expended for an "Increase and Improvement of Facilities in the Irondequoit Bay South Central Pure Waters District."

2. Following the Public Hearing, adopt a resolution approving the "Increase and Improvement of Facilities in the Irondequoit Bay South Central Pure Waters District" at the maximum amount to be expended.

3. Amend the 2026 Capital Budget to add a project entitled "IBSCPWD - South Central Trunk Sewer Improvements" in the amount of $1,800,000.

4. Authorize financing for the "IBSCPWD - South Central Trunk Sewer Improvements" project in the amount of $1,800,000, subject to the approval of the State Comptroller, if required.

5. Authorize filing of applications and execution of Project Financing Agreements and any other necessary documents by the County Executive or the Director of Finance – Chief Financial Officer, as appropriate, for participation in the New York State Water Pollution Control Revolving Loan Fund under the applicable laws of New York State to finance all or a portion of the project.

This action is a Type II Action pursuant to 6 NYCRR § 617.5 (c)(1) ("maintenance or repair involving no substantial changes in an existing structure or facility") and (2) ("replacement, rehabilitation or reconstruction of a structure or facility, in kind, on the same site, including upgrading buildings to meet building, energy, or fire codes unless such action meets or exceeds any of the thresholds in section 617.4 of this Part") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this project, consistent with authorized uses, will be available in the capital fund to be created once the financing authorization herein is approved, and in any capital fund(s) created for the same intended purpose. The local funding for this project will ultimately be provided by the Irondequoit Bay South Central Pure Waters District user fees. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Authorize an Intermunicipal Agreement with the Town of Henrietta for the Calkins Road Sidewalk Extension Project Partially Funded through Monroe County; Appropriate Committed Fund Balance; and Authorize an Interfund Transfer

Honorable Legislators:

I recommend that Your Honorable Body authorize an intermunicipal agreement with the Town of Henrietta (the "Town") for the Calkins Road Sidewalk Extension Project, partially funded through Monroe County in an amount not to exceed $45,000; appropriate committed fund balance; and authorize an interfund transfer.

The Town has submitted a Monroe County Municipal Sidewalk Funding Application to install approximately 980 linear feet of sidewalk along Calkins Road between Tumbleweed Drive and Tinker Nature Park (the "Project"). The total construction costs are anticipated to be approximately $90,000. Through the intermunicipal agreement, the County will reimburse the Town in an amount not to exceed $45,000 for construction expenses. The $45,000 of the County's share will be paid for by the appropriation and transfer of committed fund balance pursuant to Resolution 197 of 2023.

The Project will connect the existing sidewalk network from nearby neighborhoods to the west by extending sidewalk from Tumbleweed Drive to Tinker Nature Park. The sidewalk connection will serve as the only means of pedestrian access from the nearby neighborhoods. The lack of pedestrian access in this area would be addressed by the project. Such a connection would further the goals of the County's Countywide Active Transportation Plan to fill a gap within the existing sidewalk network.

The specific legislative actions required are:

1. Authorize the County Executive, or his designee, to execute an intermunicipal agreement, and any amendments thereto, with the Town of Henrietta in an amount not to exceed $45,000 for the Calkins Road Sidewalk Extension Project.

2. Amend the 2026 operating budget of the Department of Finance-Unallocated by appropriating committed fund balance in the amount of $45,000 into general fund 9001, funds center 1209030000, Transfer to Other Funds.

3. Authorize an interfund transfer in the amount of $45,000 from the Department of Finance-Unallocated, general fund 9001, funds center 1209030000, Transfer to Other Funds, to the Department of Transportation, road fund 9002, funds center 8002060000, Sidewalk Projects.

Monroe County Legislature - December 9, 2025

This action is an Unlisted Action under the New York State Environmental Quality Review Act ("SEQRA"). The Town of Henrietta will conduct a coordinated review and the provisions of SEQRA shall be complied with prior to Your Honorable Body undertaking, funding, or approving the action requested in this referral.

Funding for this intermunicipal agreement will be available in the Department of Transportation, road fund 9002, funds center 8002060000, Sidewalk Projects once the interfund transfer has been authorized. This interfund transfer requires $45,000 of additional net County support for which the appropriation of committed fund balance is requested.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello

Subject: Acceptance of a Grant from the New York State Division of Homeland Security and Emergency Services for the 2025 Next Generation 911 (NG911) Grant Program

Honorable Legislators:

I recommend that Your Honorable Body accept a grant from the New York State Division of Homeland Security and Emergency Services in the amount of $1,937,477 for the 2025 Next Generation 911 (NG911) Grant Program for the period of September 1, 2025 through August 31, 2030.

This grant funding is to enhance public safety operations, including strengthening 911 communication infrastructure. These enhancements are critical in emergency situations to ensure that public safety personnel are prepared as they receive and respond to calls for service. The NG911 program focuses on the overarching goal of increasing statewide capabilities to receive and relay 911 calls in accordance with the current National Emergency Number Association i3 standard. This is the first year the County has received this grant.

The specific legislative actions required are:

1. Authorize the County Executive, or his designee, to accept a $1,937,477 grant from, and to execute a contract and any amendments thereto with, the New York State Division of Homeland Security and Emergency Services, for the 2025 Next Generation 911 (NG911) Grant Program for the period of September 1, 2025 through August 31, 2030.

2. Amend the proposed 2026 operating budget of the Department of Public Safety by appropriating the sum of $1,937,477 into general fund 9300, funds center 2407010000, 911 Emergency Communications.

3. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balance during the grant period according to the grantor requirements, to make any necessary funding modifications within the grant guidelines to meet contractual commitments, and to enter into any amendments to extend the time period of the grant.

Monroe County Legislature - December 9, 2025

4. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and, where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with New York State Civil Service Law and, when applicable, the terms of any labor agreement affecting such positions.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

This grant is 100% funded by the New York State Division of Homeland Security and Emergency Services. No net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Amend the 2026-2031 Capital Improvement Program and the 2026 Capital Budget to Add a Project Entitled "Probation Body Worn Cameras & Less Than Lethal Devices" and Authorize Financing for the Project

Honorable Legislators:

I recommend that Your Honorable Body amend the 2026-2031 Capital Improvement Program and the 2026 Capital Budget to add a project entitled "Probation Body Worn Cameras & Less Than Lethal Devices" in the amount of $600,000 and authorize financing for the project in the amount of $600,000.

The Monroe County Probation Department is the third largest law enforcement agency in the County. It has a unique mission but the same risk and needs as other law enforcement agencies, such as the Monroe County Sheriff's Office. However, they are not equipped similarly. With the proliferation of cameras in society, the public has grown to expect that its law enforcement officers will be equipped with body worn cameras to ensure transparency during community interactions and critical incidents. Additionally, it is an expected practice that officers who carry firearms be equipped with a less than lethal option that they may employ under the appropriate circumstances thereby reducing the likelihood of serious injury or death to a suspect from a gunshot wound. This funding will allow for the equipping of all officers armed with a firearm, a Taser device. It will also provide sufficient body worn cameras to allow all officers in the field to be so equipped through a shared equipment process.

This project will equip the Monroe County Probation Department with essential modern safety equipment: body-worn cameras and less than lethal devices. This initiative will align the department with national best practices for law enforcement, enhance transparency, and provide officers with a critical less-lethal force option. Funding will provide Taser devices for all armed officers and establish a shared pool of body-worn cameras to ensure all officers in the field are equipped during their shifts, thereby increasing safety and accountability for both officers and our community.

Monroe County Legislature - December 9, 2025

The specific legislative actions required are:

1. Amend the 2026-2031 Capital Improvement Program to add a project entitled "Probation Body Worn Cameras & Less Than Lethal Devices" in the amount of $600,000.

2. Amend the 2026 Capital Budget to add a project entitled "Probation Body Worn Cameras & Less Than Lethal Devices" in the amount of $600,000.

3. Authorize financing for the project entitled "Probation Body Worn Cameras & Less Than Lethal Devices" in the amount of $600,000.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(31) ("purchase or sale of furnishings, equipment or supplies, including surplus government property, other than the following: land, radioactive material, pesticides, herbicides, or other hazardous materials") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this project, consistent with authorized uses, will be included in the capital fund to be created and any other capital fund(s) created for the same intended purpose. No additional net County support is required in the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Honorable Legislators:

This matter is being referred to Your Honorable Body at the request of Sheriff Todd K. Baxter.

I recommend that Your Honorable Body amend Resolution 289 of 2022 to accept additional funding from the New York State Office of Victim Services in the amount of $182,241 for the Sheriff's Victim Assistance Program, and to extend the time period through September 30, 2026.

This grant funds three (3) Crime Victim Specialist positions within the Sheriff's Office. The Crime Victim Specialists provide a comprehensive program that engages victims at the crime scene or immediately thereafter and walks them through the criminal justice system as needed. Services provided include: crisis support service; outreach through the home, workplace and hospital; referral service; case status information and accompaniment; short term counseling for victims and their families; advocacy at court proceedings including the provision of information and accompaniment to court; and assistance with property recovery and reimbursement for lost wages and medical bills through New York State Office of Victim Services compensation claim assistance. The County has been receiving grant funding for this program since 1989. The original award from a competitive RFA was rejected by New York State Comptroller's office, therefore it was decided to provide one-year extensions on current awards.

The specific legislative actions required are:

1. Amend Resolution 289 of 2022 to accept an additional $182,241 from, and to authorize the County Executive, or his designee, to execute a contract and any amendments thereto, with the New York State Office of Victim Services for the Sheriff's Victim Assistance Program bringing the total award to $728,964, and to extend the time period through September 30, 2026.

This grant is 100% funded by New York State Office of Victim Services. No net County support is required in the current Monroe County budget.

Subject: Amend Resolution 305 of 2022 to Accept Additional Funding from the New York State Office of Victim Services and to Extend the Time Period for the Victim and Witness Assistance Program for the District Attorney's Office

Honorable Legislators:

This matter is being referred to Your Honorable Body at the request of District Attorney Brian P. Green.

I recommend that Your Honorable Body amend Resolution 305 of 2022 to accept additional funding from the New York State Office of Victim Services in the amount of $259,856 for the Victim and Witness Assistance Program in the District Attorney's Office, and to extend the time period for one (1) year through September 30, 2026.

The Victim and Witness Assistance Grant Program funds a portion of the salary of three (3) existing full-time Crime Victim Specialist positions and two (2) existing full-time Victim Witness Advocate positions in the District Attorney's Office. In addition, the funding covers the costs of four (4) cell phones and grant-mandated travel for training. Crime Victim Specialists and Victim Witness Advocates provide support services to felony and misdemeanor crime victims who find the judicial process a bewildering and often traumatic experience. Advocates orient victims and witnesses to procedures, assist in arranging court appearances, and help victims obtain victim compensation, among other services. The additional funding will bring the grant total to $1,039,424.

The specific legislative actions required are:

1. Amend Resolution 305 of 2022 to accept an additional $259,856 from, and to authorize the County Executive, or his designee, to execute a contract and any amendments thereto, with the New York State Office of Victim Services for the Victim and Witness Assistance Grant Program in the District Attorney's Office, bringing the total program award to $1,039,424, and to extend the time period for one (1) year through September 30, 2026.

Subject: Authorize an Appropriation Transfer and Resolution and Subaward Grant Amendments pursuant to the American Rescue Plan Act (ARPA)

Honorable Legislators:

I recommend that Your Honorable Body authorize an ARPA appropriation transfer and the amendment of resolutions and subaward grant agreements for terms to commence on or after December 15, 2025 and terminate on or before December 31, 2026.

As Your Honorable Body is aware, Monroe County received $144,080,127 in State and Local Fiscal Recovery Funds through ARPA. Your Honorable Body previously allocated ARPA funds for a number of projects, including but not limited to a series of grant awards pursuant to Resolutions 342 of 2022 and 199 of 2023.

ARPA requires that all grant dollars be expended by Monroe County by December 31, 2026, and that any unspent grant dollars be returned to the U.S. Department of the Treasury. Pittsford Volunteer Ambulance, Inc., a County subrecipient of ARPA funds, has determined that it will be unable to spend and be reimbursed for all allocated grant funding prior to the December 31, 2026 expenditure deadline, and has agreed to a reduction of the maximum amount of its grant agreement in order to make such funding available to another subrecipient in our community.

I recommend that Your Honorable Body authorize an appropriation transfer and the amendment of Resolution 342 of 2022, Resolution 199 of 2023, and ARPA subaward grant agreements as follows: Pittsford Volunteer Ambulance, Inc., from an amount not to exceed $4,246,948.50 to an amount not to exceed $3,371,024.90, and a transfer of $875,923.60 from Pittsford Volunteer Ambulance, Inc. to Foodlink, Inc., from an amount not to exceed $1,430,745 to an amount not to exceed $2,306,668.60 for Foodlink's Expanding Food Access for Monroe County Families Project.

Foodlink's Expanding Food Access for Monroe County Families Project serves quality, nutritious meals to multi-generational families throughout Monroe County through community programs and partnerships. The additional ARPA grant dollars will permit Foodlink to expand its purchase of food and the delivery of food and meals to community partners in Monroe County.

Monroe County Legislature - December 9, 2025

The specific legislative actions required are:

1. Authorize an appropriation transfer of $875,923.60 as follows:

   a. From: Department of Finance, general fund 9301, funds center 1403930103, ARPA Public Safety.
   b. To: Department of Finance, general fund 9301, funds center 140393104, ARPA Health & Welfare.

2. Authorize an amendment to Resolution 199 of 2023 to decrease the total award amount to Pittsford Volunteer Ambulance, Inc., from an amount not to exceed $4,246,948.50 to an amount not to exceed $3,371,024.90.

3. Authorize an amendment to Resolution 342 of 2022 to increase the total award amount to Foodlink, Inc., from an amount not to exceed $1,430,745 to an amount not to exceed $2,306,668.60 for the Expanding Food Access for Monroe County Families Project.

4. Authorize an amendment to the County's Subaward Grant Agreement with Pittsford Volunteer Ambulance, Inc. from an amount not to exceed $4,246,948.50 to an amount not to exceed $3,371,024.90.

5. Authorize an amendment to the County's Subaward Grant Agreement with Foodlink, Inc. from an amount not to exceed $1,430,745 to an amount not to exceed $2,306,668.60 for the Expanding Food Access for Monroe County Families Project.

6. Authorize the County Executive to appropriate any subsequent years of these funds, any returned contractor funds, or any deferred revenue, in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, and to make any necessary funding modifications within the grant guidelines to meet contractual commitments.

This is a Type II Action pursuant to 6 NYCRR §617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

No additional net County support is required in the current Monroe County budget.

PURE WATERS ADMINISTRATIVE BOARD OF THE
ROCHESTER PURE WATERS DISTRICT

Intro. No. R8

RESOLUTION NO. _____ OF 2025

ESTABLISHING SCALE OF CHARGES FOR ROCHESTER PURE WATERS DISTRICT, COUNTY SEWER DISTRICT FOR COUNTY OF MONROE, NEW YORK

WHEREAS, the Administrative Board of the Rochester Pure Waters District has, pursuant to §266 of the County Law of the State of New York, established a scale of charges for the operation and maintenance of facilities of the District and setting proportionate factors of surcharge for the treatment of industrial wastes and sewerage received by the District; and

WHEREAS, the Administrative Board of the Rochester Pure Waters District has, pursuant to §266 of the County Law of the State of New York and Resolution No. 502 of 1971, as amended by Resolution No. 337 of 1974, called a public hearing, said hearing having been held on the ____ day of December, 2025, at ____ p.m. ET.

NOW, THEREFORE, BE IT RESOLVED BY THE PURE WATERS ADMINISTRATIVE BOARD OF THE ROCHESTER PURE WATERS DISTRICT, as follows:

Section 1.

SCALE OF CHARGES

These Scales of Charges shall be effective commencing January 1, 2026.

ROCHESTER PURE WATERS DISTRICT
Operation and Maintenance Charge

$3.49 per 1,000 Gallons of water consumption (see Notes 1-3).

CHARGES FOR RPWD ZONE 2: No Charge - Operation and Maintenance not provided.

1. This charge is based upon recent historic water consumption reflecting normal domestic waste water. It will be adjusted for industrial and commercial users based on the quality of sewage and additional cost of treatment.

2. This charge is subject to change based on financial obligations of the District.

3. This charge will be included in the 2026 County Tax Bill as a user charge. Accounts for which water consumption has not been calculated by November 1, 2025 will be billed at 60,000 gallons per unit for the user charge separately commencing January 1, 2026. All such bills unpaid as of October 1st will be transferred to the County Tax Rolls.

4. In-District and out-of-District agreements may be developed based on but not limited to loadings placed on the total sewerage systems pursuant to the Monroe County Sewer Use Law.

PWAB 2.3

NEW USER CONNECTION FEES

The charges for regulating, permitting and connecting to a public sanitary sewer within the District are based on average costs incurred by the District for such new connections.

The proposed fee schedule for new connections is as follows:

Rochester Pure Waters District:
$300.00 per connection – residential *
$400.00 per connection – non-residential *

* For the RPWD a storm and sanitary sewer connection will be considered one connection when made at the same time.

SEWER SURCHARGE - APPLICABLE TO ALL DISTRICTS

The owner or lessee of any parcel of real property connected with the District's Sewerage System and discharging any sewage, industrial wastes or other wastes containing acceptable pollutants imparting characteristics that exceed the maximum values established for normal sewage shall be surcharged. The surcharge reimburses the District for increased cost of treating said effluent. The charge shall be arrived at by multiplying the charge for normal sanitary sewage by the surcharge factor. The formula for finding the surcharge factor is as follows:

$$S.F. = \frac{a(BOD-300)}{300} + \frac{b(SS-300)}{300} + \frac{d(P-10)}{10}$$

Definitions:

S.F.	=	Surcharge Factor.
BOD	=	Milligrams per liter of Biochemical Oxygen Demand, as defined in Section 2.12 of the Monroe County Sewer Use Law.
SS	=	Milligrams per liter of Suspended Solids, as defined in Section 2.55 of the Monroe County Sewer Use Law.
P	=	Milligrams per liter of Phosphorus, as defined in Section 2.33 of the Monroe County Sewer Use Law.
a	=	Proportionate cost to treat a lb. of Biochemical Oxygen Demand (BOD) and is established at 0.470.
b	=	Proportionate cost to treat a lb. of Suspended Solids (SS) and is established at 0.505.
d	=	Proportionate cost to treat a lb. of Phosphorus (P) and is established at 0.025.

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The proposed project will not adversely impact the environment and is expected to provide significant benefits to the community. It focuses on a single site within Seneca Park, aiming to enhance inclusive access to the Genesee River through the installation of an ADA-accessible canoe and kayak launch.

Special care will be taken to ensure that trail construction and associated site improvements do not negatively impact local wildlife habitats or sensitive ecosystems. Trail routes will be planned to avoid disruption to native vegetation, and materials and construction methods will be selected to prevent soil erosion and protect water quality in the nearby river and surrounding parkland. Where necessary, erosion control measures, such as silt fence, will be incorporated into the design.

The project will require permitting through the United State Army Corps of Engineers, New York State Department of Environmental Conservation, and the New York State Parks Office of Historic Preservation. A consulting firm will be onboarded to move through the permitting process, ensuring that all regulatory agencies have the required information and that the nature ecosystem is protected during construciton activities. All permits will be attained prior to the commencement of construction.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Monroe County is adding three additional radio communications sites across Monroe County. These sites are distributed throughout Monroe County to enhance coverage for first responders. These sites are approximately, 43.21914674039541, -77.5290806468412 in Webster, 170 Payne Beach in Hilton, and 380 Lee Road, Rochester. 170 Payne Beach Road and 380 Lee Road are existing County-owned buildings with existing radio communications infrastructure on site and will be upgraded to meet the needs of the 7/800 mhz trunked system. The Webster location is a privately owned telecommunications tower that Monroe County will co-locate on. In addition to any radio tower equipment each site will have an approximately 10' x 20' equipment building and generator that will power the site in the event of a power outage.

Each of these sites is previously disturbed and hosts communications infrastructure currently. Accordingly, the proposed action will not result in any significant adverse environmental impacts at 43.21914674039541, -77.5290806468412 in Webster, 170 Payne Beach in Hilton, and 380 Lee Road, Rochester.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The proposed construction of the 5,500 SF building additional to the existing Ames Building will not result in any significant adverse impacts, either individually or cumulatively. The proposed project is consistent with surrounding uses and will connect to existing public water and sewer systems, which have sufficient capacity to serve the project. Any storm water runoff will be directed to existing infrastructure. The project will comply with all applicable zoning, building, and permitting requirements. No point source discharges or permanent impoundments are proposed. Considering the small scale of disturbance and the temporary nature of construction impacts, there will be no significant impacts. Accordingly, this action will not result in any significant adverse environmental impacts.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1 is accurate and complete.

A. Project and Applicant/Sponsor Information.

Name of Action or Project: Northeast Quadrant (Gloria Drive) Landfill Closure and Site Improvements		
Project Location (describe, and attach a general location map): 1735 Kennedy Road		
Brief Description of Proposed Action (include purpose or need): The Northeast Quadrant Landfill (NEQLF, also known as the Gloria Drive Landfill) has been closed since the 1980's and has since experienced degradation to the capping system, causing issues with leachate outbreaks and stormwater ponding on the cap. To address these issues, Monroe County will be making improvements to the landfill capping system, landfill gas system, stormwater controls and leachate collection and conveyance. The design of these various improvements are underway, but not yet finalized. Based on site knowledge, improvements are anticipated to include recapping the existing landfill with a New York State Department of Environmental Conservation (NYSDEC) approved cap to allow for better stormwater management and a decrease in infiltration of precipitation. The project will include a review of the existing landfill gas system and leachate collection and conveyance system. Based on the findings during the design, portions of the leachate collection and conveyance system may be upgraded with new HDPE piping to allow for more efficient collection. A Surface Emission Monitoring (SEM) scan, along with other technical methodologies, will be conducted to analyze and estimate existing landfill gas emissions as well as the effectiveness of the existing landfill gas venting system. The feasibility of a more effective solution to minimize fugitive landfill gas emissions, to be installed during the capping system installation, will be evaluated.

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only [If applicable]
Project: Northeast Quadrant LF Closure and Site Im
Date: 10/8/2025

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:
To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

The proposed project involves making improvements to the Northeast Quadrant Landfill capping system, landfill gas system, stormwater controls and leachate collection and conveyance. The project will include a review of the existing landfill gas system and leachate collection and conveyance system. Based on the findings during the design, portions of the leachate collection and conveyance system may be upgraded with new HDPE piping to allow for more efficient collection. A Surface Emission Monitoring (SEM) scan, along with other technical methodologies, will be conducted to analyze and estimate existing landfill gas emissions as well as the effectiveness of the existing landfill gas venting system. The feasibility of a more effective solution to minimize fugitive landfill gas emissions, to be installed during the capping system installation, will be evaluated. The proposed project is not anticipated to result in any moderate to large impacts. The project is on county-owned land that has been improved with the Northeast Quadrant Landfill since 1975. The construction activities are anticipated to occur over the course of 18-24 months depending on the finalized design.

Impact on Noise, Odor, and Light
Given that the proposed project is associated with a closed municipal solid waste landfill, mitigative measures will be employed to limit odors, noise, and the migration of leachate or landfill gas.

Impact on Land
The proposed action involves the disturbance of previously developed land. The land is already disturbed and has been developed in the past, minimizing any potential environmental effects associated with this activity.

Impact on Human Health
Given that the proposed project is associated with a closed municipal solid waste landfill, mitigative measures will be employed to limit odors, dust, noise, and the migration of leachate or landfill gas. Local agencies and residential neighbors will be kept apprised of the proposed work throughout the project.

Impact on the Environment
This project is anticipated to include site improvements to already disturbed land and will have minimal or no impacts on geological features, water resources (surface and groundwater), flooding, air quality, plants and animals, agricultural resources, aesthetic resources, open space and recreation, critical environmental areas, transportation, energy, human health, and community plans/character.

Determination
Based on the findings of the environmental review, including the assessments of land use and human health, it has been determined that the proposed project will not result in significant adverse environmental impacts. Accordingly, a Negative Declaration has been issued pursuant to the State Environmental Quality Review Act (SEQRA).

Determination of Significance - Type 1 and Unlisted Actions

SEQR Status: ☑ Type 1 ☐ Unlisted

Identify portions of EAF completed for this Project: ☑ Part 1 ☑ Part 2 ☑ Part 3

13,26

Upon review of the information recorded on this EAF, as noted, plus this additional support information
Northeast Quadrant Landfill Master Plan

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the Monroe County Legislature as lead agency that:

☑ A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

☐ B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.d).

☐ C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

City of Rochester, Upland Water Conduit Study and Automation, Rochester, New York
Mr. Shrivastava was the Principal-in-Charge on this project. Larsen Engineers studied the condition of the City water supply system delivering up to 40 MGD, and evaluated various retrofit options to reduce future maintenance. Engineering designed included in-situ repairs of control valves and provided electrically operated motor controls for remote control. Larsen also provided engineering support during construction phase and coordination of 'startup training of the radio based control system to manage facilities within 30 miles of service area.

Greenhill YMCA Lodge, YMCA New York City
Mr. Shrivastava was Principal-in-Charge as a subconsultant to Lacina Haitler Architects. Larsen was responsible for site design and mechanical, electrical, and plumbing (MEP) services for the 5,500 SF lodge at the YMCA Greenhill camp site. Larsen also provided survey and mapping services for the new lodge site. Gold LEEDTM certification was obtained for the project; the design was based on obtaining maximum LEED points. Larsen Engineers was also responsible for the following LEED design features: Subsurface storm water infiltration; and water conservation measures such as low-flow showers and sensor-controlled, low-flow faucets. Also, use of recycled material, such as recycled concrete, as select fill; and use of fly ash in concrete. SCALE OF CHARGES

These Scales of Charges shall be effective commencing January 1, 2026.

ROCHESTER PURE WATERS DISTRICT
Operation and Maintenance Charge

$3.49 per 1,000 Gallons of water consumption (see Notes 1-3).

CHARGES FOR RPWD ZONE 2: No Charge - Operation and Maintenance not provided.

1. This charge is based upon recent historic water consumption reflecting normal domestic waste water. It will be adjusted for industrial and commercial users based on the quality of sewage and additional cost of treatment.

2. This charge is subject to change based on financial obligations of the District.

3. This charge will be included in the 2026 County Tax Bill as a user charge. Accounts for which water consumption has not been calculated by November 1, 2025 will be billed at 60,000 gallons per unit for the user charge separately commencing January 1, 2026. All such bills unpaid as of October 1st will be transferred to the County Tax Rolls.

4. In-District and out-of-District agreements may be developed based on but not limited to loadings placed on the total sewerage systems pursuant to the Monroe County Sewer Use Law.

NEW USER CONNECTION FEES

The charges for regulating, permitting and connecting to a public sanitary sewer within the District are based on average costs incurred by the District for such new connections.

The proposed fee schedule for new connections is as follows:

Rochester Pure Waters District:
$300.00 per connection – residential *
$400.00 per connection – non-residential *

* For the RPWD a storm and sanitary sewer connection will be considered one connection when made at the same time.

SEWER SURCHARGE - APPLICABLE TO ALL DISTRICTS

The owner or lessee of any parcel of real property connected with the District's Sewerage System and discharging any sewage, industrial wastes or other wastes containing acceptable pollutants imparting characteristics that exceed

the maximum values established for normal sewage shall be surcharged. The surcharge reimburses the District for increased cost of treating said effluent. The charge shall be arrived at by multiplying the charge for normal sanitary sewage by the surcharge factor. The formula for finding the surcharge factor is as follows:

$$S.F. = \frac{a(BOD-300)}{300} + \frac{b(SS-300)}{300} + \frac{d(P-10)}{10}$$

Definitions:

S.F.	=	Surcharge Factor.
BOD	=	Milligrams per liter of Biochemical Oxygen Demand, as defined in the Monroe County Sewer Use Law.
SS	=	Milligrams per liter of Suspended Solids, as defined in the Monroe County Sewer Use Law.
P	=	Milligrams per liter of Phosphorus, as defined in the Monroe County Sewer Use Law.
a	=	Proportionate cost to treat a lb. of Biochemical Oxygen Demand (BOD) and is established at 0.470.
b	=	Proportionate cost to treat a lb. of Suspended Solids (SS) and is established at 0.505.
d	=	Proportionate cost to treat a lb. of Phosphorus (P) and is established at 0.025.

Definitions:

S.F. = Surcharge Factor.

BOD = Milligrams per liter of Biochemical Oxygen Demand, as defined in the Monroe County Sewer Use Law.

SS = Milligrams per liter of Suspended Solids, as defined in the Monroe County Sewer Use Law.

P = Milligrams per liter of Phosphorus, as defined in the Monroe County Sewer Use Law.

The owner or lessee of any parcel of real property connected with the District's Sewerage System and discharging any sewage, industrial wastes or other wastes containing acceptable pollutants imparting characteristics that exceed the maximum values established for normal sewage shall be surcharged. The surcharge reimburses the District for increased cost of treating said effluent. The charge shall be arrived at by multiplying the charge for normal sanitary sewage by the surcharge factor. The formula for finding the surcharge factor is as follows:

$$S.F. = \frac{a(BOD-300)}{300} + \frac{b(SS-300)}{300} + \frac{d(P-10)}{10}$$

Definitions:

S.F. = Surcharge Factor.

BOD = Milligrams per liter of Biochemical Oxygen Demand, as defined in the Monroe County Sewer Use Law.

SS = Milligrams per liter of Suspended Solids, as defined in the Monroe County Sewer Use Law.

P = Milligrams per liter of Phosphorus, as defined in the Monroe County Sewer Use Law.

a = Proportionate cost to treat a lb. of Biochemical Oxygen Demand (BOD) and is established at 0.470.

Definitions:

S.F. = Surcharge Factor.

BOD = Milligrams per liter of Biochemical Oxygen Demand, as defined in the Monroe County Sewer Use Law.

SS = Milligrams per liter of Suspended Solids, as defined in the Monroe County Sewer Use Law.

P = Milligrams per liter of Phosphorus, as defined in the Monroe County Sewer Use Law.

Operation and Maintenance Charge for properties Receiving Local Collection System Services

$2.835 per 1,000 gallons of water consumption (see Notes 1-3).

1. This charge is based upon recent historic water consumption reflecting normal domestic waste water. It will be adjusted for industrial and commercial users based on the quality of sewage and additional cost of treatment.

2. This charge is subject to change based on financial obligations of the District.

3. This charge will be included in the 2026 County Tax Bill as a user charge. Accounts for which water consumption has not been calculated by November 1, 2025 will be billed at 60,000 gallons per unit for the user charge commencing January 1, 2026. All such bills unpaid as of October 1st will be transferred to the County Tax Rolls.

4. In-District and out-of-District agreements may be developed based on but not limited to loadings placed on the total sewerage systems pursuant to the Monroe County Sewer Use Law.

NEW USER CONNECTION FEES

The charges for regulating, permitting and connecting to a public sanitary sewer within the District are based on average costs incurred by the District for such new connections.

The proposed fee schedule for new connections is as follows:

Northwest Quadrant Pure Waters District:
$250.00 per connection - residential
$350.00 per connection - non-residential

SEWER SURCHARGE - APPLICABLE TO ALL DISTRICTS

The owner or lessee of any parcel of real property connected with the District's Sewerage System and discharging any sewage, industrial wastes or other wastes containing acceptable pollutants imparting characteristics that exceed the maximum values established for normal sewage shall be surcharged. The surcharge reimburses the District for increased cost of treating said effluent. The charge shall be arrived at by multiplying the charge for normal sanitary sewage by the surcharge factor. The formula for finding the surcharge factor is as follows:

$$S.F. = \frac{a(BOD-300)}{300} + \frac{b(SS-300)}{300} + \frac{d(P-10)}{10}$$

Definitions:

S.F.	=	Surcharge Factor.
BOD	=	Milligrams per liter of Biochemical Oxygen Demand, as defined in Section 2.12 of the Monroe County Sewer Use Law.
SS	=	Milligrams per liter of Suspended Solids, as defined in Section 2.55 of the Monroe County Sewer Use Law.
P	=	Milligrams per liter of Phosphorus, as defined in Section 2.33 of the Monroe County Sewer Use Law.
a	=	Proportionate cost to treat a lb. of Biochemical Oxygen Demand (BOD) and is established at 0.470.
b	=	Proportionate cost to treat a lb. of Suspended Solids (SS) and is established at 0.505.
d	=	Proportionate cost to treat a lb. of Phosphorus (P) and is established at 0.025.

Subject: Enact a Local Law, As Authorized by New York State, Opting Out of Establishing a Registration System for Short-Term Rental Units and Requiring Certain Information in Hotel Occupancy Tax Returns

Honorable Legislators:

I recommend that Your Honorable Body enact a Local Law, as authorized by New York State, opting out of establishing a registration system for short-term rental units and requiring that certain information be provided on hotel occupancy tax returns.

In 2024, New York State enacted legislation related to short-term rental units in municipalities throughout the state. The legislation, codified as New York Real Property Law § 447-c requires that each county either establish a registration system for short-term rental units or, pursuant to New York Real Property Law § 447-c(1)(a), adopt a local law opting not to establish a registration system. Counties that opt out of establishing a registration system retain the future right to opt in to the registration paradigm. Counties that do not opt out of the registration system requirement are required imminently to establish a registration system and will be required to maintain such system in perpetuity. Establishing a registration system would impose a costly administrative burden on Monroe County and could hinder the ability of Monroe County to collect occupancy and sales taxes.

Monroe County has existing voluntary contribution agreements with short-term rental providers Airbnb, Inc. and VRBO (formerly Vacation Rentals By Owner, now a subsidiary of Expedia Group) to provide for the collection of these taxes, but those agreements may terminate if Monroe County does not opt out of establishing a registration system. The County is regularly engaged with these providers and expects to amend its agreements with them to add more robust protections for the County, including to ensure the County can appropriately receive and analyze important short-term rental data to address any public safety or housing-stock availability concerns that exist or may arise in the future. The proposed local law addresses these public safety and housing-stock availability concerns by require that book services provide the Department of Public Safety and the Department of Planning and Development with URLs for all home listings and a list or means of compiling a list, aggregated by ZIP code, containing the number of home listings offered on the booking service and the number of nights the properties were occupied.

The specific legislative actions required are:

1. Schedule and hold a Public Hearing on the proposed Local Law.

Monroe County Legislature - December 9, 2025

2. Enact a Local Law, as authorized by New York Real Property Law § 447-c, opting out of the New York State requirement to establish a registration system for short-term rental units and requiring taxpayers to provide certain information on hotel room occupancy tax returns.

Enactment of this local law will have no impact on the revenues or expenditures of the current Monroe County budget.

This is a Type II Action pursuant to 6 NYCRR §617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

I recommend that this matter receive favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The project consists of one site located at Highland Park, the location of the previously constructed AIDS Remembrance Garden. The purpose of the project is the rehabilitation of existing garden components including, but not limited to, arboretum redevelopment, resurfacing walkways, restoring benches, memorials and other hardscaping associated with the Remembrance Garden. Arboretum redevelopment will focus on the pruning of the existing arboretum specimens as well as the planting of additional specimens and ground covers. enhancements to existing walkways ensuring ADA compliance and connection pathways to others memorials will also occur. Various benches, memorial plaques and other hardscaping / landscaping of existing beds will occur throughout the project site.

The project team will work in close collaboration with the State Historic Preservation Office (SHPO) as the existing AIDS Remembrance Garden was constructed in close proximity to the Historic Monroe County Insane Asylum Alms House and Penitentiary Cemetery. The penitentiary was operational from the mid 1800s to 1873 and the burial grounds are presumed to be from that same timeframe. The November 1984 Rochester Museum and Science Center Report will be the basis of the historical documentation of the 301 burial locations, however the project consulting team will produce all documents necessary to SHPO for their review and approval. The project will not seek to exhume or disturb any of the existing burial sites.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

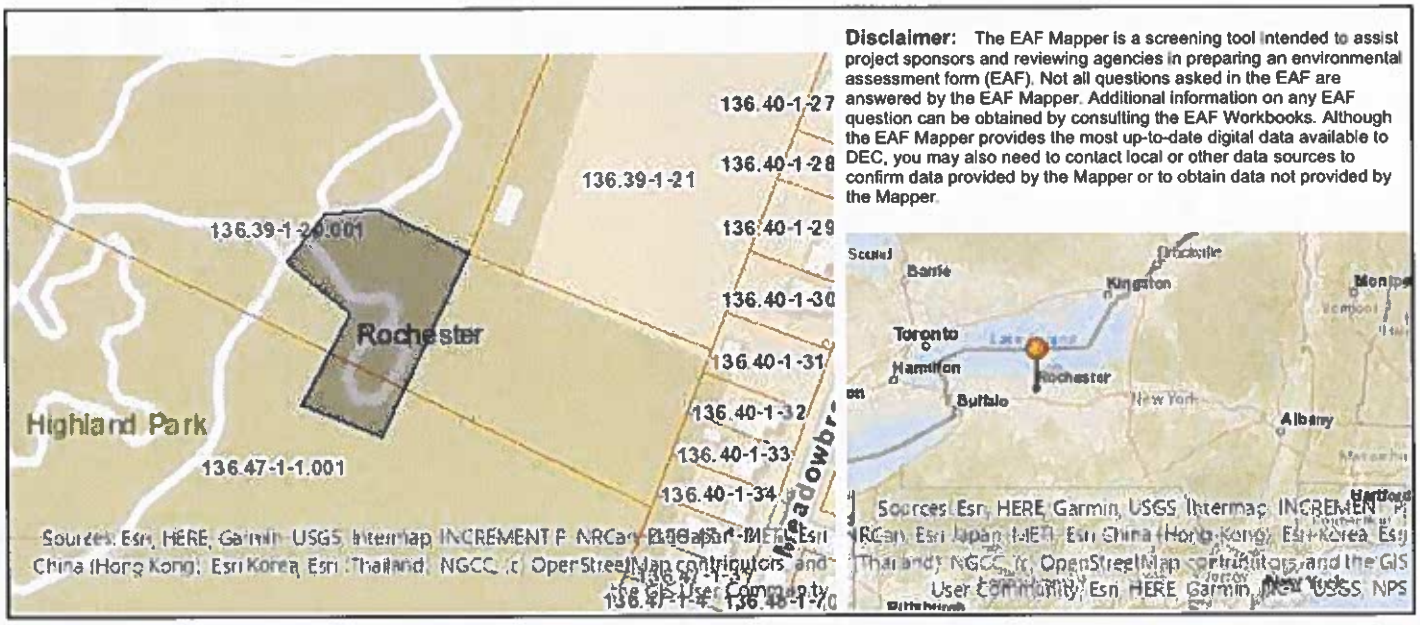

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The proposed project will not adversely impact the environment and is expected to provide significant benefits to the community. It focuses on a single site within Seneca Park, aiming to enhance inclusive access to the Genesee River through the installation of an ADA-accessible canoe and kayak launch.

Special care will be taken to ensure that trail construction and associated site improvements do not negatively impact local wildlife habitats or sensitive ecosystems. Trail routes will be planned to avoid disruption to native vegetation, and materials and construction methods will be selected to prevent soil erosion and protect water quality in the nearby river and surrounding parkland. Where necessary, erosion control measures, such as silt fence, will be incorporated into the design.

The project will require permitting through the United State Army Corps of Engineers, New York State Department of Environmental Conservation, and the New York State Parks Office of Historic Preservation. A consulting firm will be onboarded to move through the permitting process, ensuring that all regulatory agencies have the required information and that the nature ecosystem is protected during construciton activities. All permits will be attained prior to the commencement of construction.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The proposed project will not adversely impact the environment and is expected to provide significant benefits to the community. It focuses on a single site within Seneca Park, aiming to enhance inclusive access to the Genesee River through the installation of an ADA-accessible canoe and kayak launch.

Special care will be taken to ensure that trail construction and associated site improvements do not negatively impact local wildlife habitats or sensitive ecosystems. Trail routes will be planned to avoid disruption to native vegetation, and materials and construction methods will be selected to prevent soil erosion and protect water quality in the nearby river and surrounding parkland. Where necessary, erosion control measures, such as silt fence, will be incorporated into the design.

The project will require permitting through the United State Army Corps of Engineers, New York State Department of Environmental Conservation, and the New York State Parks Office of Historic Preservation. A consulting firm will be onboarded to move through the permitting process, ensuring that all regulatory agencies have the required information and that the nature ecosystem is protected during construciton activities. All permits will be attained prior to the commencement of construction.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Monroe County is adding three additional radio communications sites across Monroe County. These sites are distributed throughout Monroe County to enhance coverage for first responders. These sites are approximately, 43.21914674039541, -77.5290806468412 in Webster, 170 Payne Beach in Hilton, and 380 Lee Road, Rochester. 170 Payne Beach Road and 380 Lee Road are existing County-owned buildings with existing radio communications infrastructure on site and will be upgraded to meet the needs of the 7/800 mhz trunked system. The Webster location is a privately owned telecommunications tower that Monroe County will co-locate on. In addition to any radio tower equipment each site will have an approximately 10' x 20' equipment building and generator that will power the site in the event of a power outage.

Each of these sites is previously disturbed and hosts communications infrastructure currently. Accordingly, the proposed action will not result in any significant adverse environmental impacts at 43.21914674039541, -77.5290806468412 in Webster, 170 Payne Beach in Hilton, and 380 Lee Road, Rochester.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

Monroe County is adding three additional radio communications sites across Monroe County. These sites are distributed throughout Monroe County to enhance coverage for first responders. These sites are approximately, 43.21914674039541, -77.5290806468412 in Webster, 170 Payne Beach in Hilton, and 380 Lee Road, Rochester. 170 Payne Beach Road and 380 Lee Road are existing County-owned buildings with existing radio communications infrastructure on site and will be upgraded to meet the needs of the 7/800 mhz trunked system. The Webster location is a privately owned telecommunications tower that Monroe County will co-locate on. In addition to any radio tower equipment each site will have an approximately 10' x 20' equipment building and generator that will power the site in the event of a power outage.

Each of these sites is previously disturbed and hosts communications infrastructure currently. Accordingly, the proposed action will not result in any significant adverse environmental impacts at 43.21914674039541, -77.5290806468412 in Webster, 170 Payne Beach in Hilton, and 380 Lee Road, Rochester.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The proposed construction of the 5,500 SF building additional to the existing Ames Building will not result in any significant adverse impacts, either individually or cumulatively. The proposed project is consistent with surrounding uses and will connect to existing public water and sewer systems, which have sufficient capacity to serve the project. Any storm water runoff will be directed to existing infrastructure. The project will comply with all applicable zoning, building, and permitting requirements. No point source discharges or permanent impoundments are proposed. Considering the small scale of disturbance and the temporary nature of construction impacts, there will be no significant impacts. Accordingly, this action will not result in any significant adverse environmental impacts.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

Part 3 Determination of Significance

For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3. Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring, duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

The proposed construction of the 5,500 SF building additional to the existing Ames Building will not result in any significant adverse impacts, either individually or cumulatively. The proposed project is consistent with surrounding uses and will connect to existing public water and sewer systems, which have sufficient capacity to serve the project. Any storm water runoff will be directed to existing infrastructure. The project will comply with all applicable zoning, building, and permitting requirements. No point source discharges or permanent impoundments are proposed. Considering the small scale of disturbance and the temporary nature of construction impacts, there will be no significant impacts. Accordingly, this action will not result in any significant adverse environmental impacts.

☐ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action may result in one or more potentially large or significant adverse impacts and an environmental impact statement is required.

☑ Check this box if you have determined, based on the information and analysis above, and any supporting documentation, that the proposed action will not result in any significant adverse environmental impacts.

Committee Assignment
ENV. & PUB. WORKS -L

November 7, 2025

To The Honorable
Monroe County Legislature
407 County Office Building
Rochester, New York 14614

Subject: Classification of Action and Determination of Significance Pursuant to the State Environmental Quality Review Act for the Proposed Northeast Quadrant Landfill Cap Improvements Project in the Town of Penfield

Honorable Legislators:

I recommend that Your Honorable Body determine whether the proposed Northeast Quadrant Landfill Cap Improvements Project ("the Action") in the Town of Penfield may have a significant adverse impact on the environment pursuant to the State Environmental Quality Review Act ("SEQRA").

This project involves Northeast Quadrant Landfill (NEQLF, also known as the Gloria Drive Landfill), which has been closed since the 1980's and has since experienced degradation to the capping system, causing issues with leachate outbreaks and stormwater ponding on the cap. To address these issues, Monroe County will be making improvements to the landfill capping system, landfill gas system, stormwater controls and leachate collection and conveyance. Based on the findings during the design, portions of the leachate collection and conveyance system may be upgraded with new HDPE piping to allow for more efficient collection. A Surface Emission Monitoring (SEM) scan, along with other technical methodologies, will be conducted to analyze and estimate existing landfill gas emissions as well as the effectiveness of the existing landfill gas venting system. The feasibility of a more effective solution to minimize fugitive landfill gas emissions, to be installed during the capping system installation, will be evaluated. The SEQRA regulations found at 6 NYCRR Part 617 require that no agency shall carry out or approve an Action until it has complied with the requirements of SEQRA.

The Action has been preliminarily classified as a Type I action. Notices of Intent for Monroe County to serve as Lead Agency for the purposes of undergoing a coordinated review and Part 1 of the Full Environmental Assessment Form were sent to all involved agencies on October 20, 2025.

Monroe County Legislature - December 9, 2025

The specific legislative actions required are:

1. Determine that the Action is a Type I action.

2. Designate Monroe County to serve as Lead Agency pursuant to a coordinated review.

3. Make a determination of significance regarding the Action pursuant to 6 NYCRR § 617.7.

4. Authorize the County Executive, or his designee, to take such actions to comply with the requirements of the State Environmental Quality Review Act, including without limitation, the execution of documents and the filing, distribution and publication of the documents required under the State Environmental Quality Review Act, and any other actions to implement the intent of this resolution.

This determination will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello
Monroe County Executive

Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1is accurate and complete.

A. Project and Applicant/Sponsor Information.

Name of Action or Project: Northeast Quadrant (Gloria Drive) Landfill Closure and Site Improvements		
Project Location (describe, and attach a general location map): 1735 Kennedy Road		
Brief Description of Proposed Action (include purpose or need): The Northeast Quadrant Landfill (NEQLF, also known as the Gloria Drive Landfill) has been closed since the 1980's and has since experienced degradation to the capping system, causing issues with leachate outbreaks and stormwater ponding on the cap. To address these issues, Monroe County will be making improvements to the landfill capping system, landfill gas system, stormwater controls and leachate collection and conveyance. The design of these various improvements are underway, but not yet finalized. Based on site knowledge, improvements are anticipated to include recapping the existing landfill with a New York State Department of Environmental Conservation (NYSDEC) approved cap to allow for better stormwater management and a decrease in infiltration of precipitation. The project will include a review of the existing landfill gas system and leachate collection and conveyance system. Based on the findings during the design, portions of the leachate collection and conveyance system may be upgraded with new HDPE piping to allow for more efficient collection. A Surface Emission Monitoring (SEM) scan, along with other technical methodologies, will be conducted to analyze and estimate existing landfill gas emissions as well as the effectiveness of the existing landfill gas venting system. The feasibility of a more effective solution to minimize fugitive landfill gas emissions, to be installed during the capping system installation, will be evaluated.

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency **and** the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "**Yes**" to a numbered question, please complete all the questions that follow in that section.
- If you answer "**No**" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

The proposed project involves making improvements to the Northeast Quadrant Landfill capping system, landfill gas system, stormwater controls and leachate collection and conveyance. The project will include a review of the existing landfill gas system and leachate collection and conveyance system. Based on the findings during the design, portions of the leachate collection and conveyance system may be upgraded with new HDPE piping to allow for more efficient collection. A Surface Emission Monitoring (SEM) scan, along with other technical methodologies, will be conducted to analyze and estimate existing landfill gas emissions as well as the effectiveness of the existing landfill gas venting system. The feasibility of a more effective solution to minimize fugitive landfill gas emissions, to be installed during the capping system installation, will be evaluated. The proposed project is not anticipated to result in any moderate to large impacts. The project is on county-owned land that has been improved with the Northeast Quadrant Landfill since 1975. The construction activities are anticipated to occur over the course of 18-24 months depending on the finalized design.

Impact on Noise, Odor, and Light
Given that the proposed project is associated with a closed municipal solid waste landfill, mitigative measures will be employed to limit odors, noise, and the migration of leachate or landfill gas.

Impact on Land
The proposed action involves the disturbance of previously developed land. The land is already disturbed and has been developed in the past, minimizing any potential environmental effects associated with this activity.

Impact on Human Health
Given that the proposed project is associated with a closed municipal solid waste landfill, mitigative measures will be employed to limit odors, dust, noise, and the migration of leachate or landfill gas. Local agencies and residential neighbors will be kept apprised of the proposed work throughout the project.

Impact on the Environment
This project is anticipated to include site improvements to already disturbed land and will have minimal or no impacts on geological features, water resources (surface and groundwater), flooding, air quality, plants and animals, agricultural resources, aesthetic resources, open space and recreation, critical environmental areas, transportation, energy, human health, and community plans/character.

Determination
Based on the findings of the environmental review, including the assessments of land use and human health, it has been determined that the proposed project will not result in significant adverse environmental impacts. Accordingly, a Negative Declaration has been issued pursuant to the State Environmental Quality Review Act (SEQRA).

Determination of Significance - Type 1 and Unlisted Actions

SEQR Status: ☑ Type 1 ☐ Unlisted

Identify portions of EAF completed for this Project: ☑ Part 1 ☑ Part 2 ☑ Part 3

Upon review of the information recorded on this EAF, as noted, plus this additional support information
Northeast Quadrant Landfill Master Plan

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the Monroe County Legislature as lead agency that:

☑ A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

☐ B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.d).

☐ C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the applicant or project sponsor to verify that the information contained in Part 1 is accurate and complete.

A. Project and Applicant/Sponsor Information.

Name of Action or Project: Northeast Quadrant (Gloria Drive) Landfill Closure and Site Improvements		
Project Location (describe, and attach a general location map): 1735 Kennedy Road		
Brief Description of Proposed Action (include purpose or need): The Northeast Quadrant Landfill (NEQLF, also known as the Gloria Drive Landfill) has been closed since the 1980's and has since experienced degradation to the capping system, causing issues with leachate outbreaks and stormwater ponding on the cap. To address these issues, Monroe County will be making improvements to the landfill capping system, landfill gas system, stormwater controls and leachate collection and conveyance. The design of these various improvements are underway, but not yet finalized. Based on site knowledge, improvements are anticipated to include recapping the existing landfill with a New York State Department of Environmental Conservation (NYSDEC) approved cap to allow for better stormwater management and a decrease in infiltration of precipitation. The project will include a review of the existing landfill gas system and leachate collection and conveyance system. Based on the findings during the design, portions of the leachate collection and conveyance system may be upgraded with new HDPE piping to allow for more efficient collection. A Surface Emission Monitoring (SEM) scan, along with other technical methodologies, will be conducted to analyze and estimate existing landfill gas emissions as well as the effectiveness of the existing landfill gas venting system. The feasibility of a more effective solution to minimize fugitive landfill gas emissions, to be installed during the capping system installation, will be evaluated.

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only (If applicable)
Project: Northeast Quadrant LF Closure and Site Im
Date: 10/8/2025

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency and the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer "Yes" to a numbered question, please complete all the questions that follow in that section.
- If you answer "No" to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box "Moderate to large impact may occur."
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the "whole action".
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts and Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:
To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

The proposed project involves making improvements to the Northeast Quadrant Landfill capping system, landfill gas system, stormwater controls and leachate collection and conveyance. The project will include a review of the existing landfill gas system and leachate collection and conveyance system. Based on the findings during the design, portions of the leachate collection and conveyance system may be upgraded with new HDPE piping to allow for more efficient collection. A Surface Emission Monitoring (SEM) scan, along with other technical methodologies, will be conducted to analyze and estimate existing landfill gas emissions as well as the effectiveness of the existing landfill gas venting system. The feasibility of a more effective solution to minimize fugitive landfill gas emissions, to be installed during the capping system installation, will be evaluated. The proposed project is not anticipated to result in any moderate to large impacts. The project is on county-owned land that has been improved with the Northeast Quadrant Landfill since 1975. The construction activities are anticipated to occur over the course of 18-24 months depending on the finalized design.

Impact on Noise, Odor, and Light
Given that the proposed project is associated with a closed municipal solid waste landfill, mitigative measures will be employed to limit odors, noise, and the migration of leachate or landfill gas.

Impact on Land
The proposed action involves the disturbance of previously developed land. The land is already disturbed and has been developed in the past, minimizing any potential environmental effects associated with this activity.

Impact on Human Health
Given that the proposed project is associated with a closed municipal solid waste landfill, mitigative measures will be employed to limit odors, dust, noise, and the migration of leachate or landfill gas. Local agencies and residential neighbors will be kept apprised of the proposed work throughout the project.

Impact on the Environment
This project is anticipated to include site improvements to already disturbed land and will have minimal or no impacts on geological features, water resources (surface and groundwater), flooding, air quality, plants and animals, agricultural resources, aesthetic resources, open space and recreation, critical environmental areas, transportation, energy, human health, and community plans/character.

Determination
Based on the findings of the environmental review, including the assessments of land use and human health, it has been determined that the proposed project will not result in significant adverse environmental impacts. Accordingly a Negative Declaration has been issued pursuant to the State Environmental Quality Review Act (SEQRA).

13,26

Upon review of the information recorded on this EAF, as noted, plus this additional support information
Northeast Quadrant Landfill Master Plan

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the Monroe County Legislature as lead agency that:

☑ A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

☐ B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.d).

☐ C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

Subject: Authorizing a License Agreement with Bella Events Group, LLC for the 2026 Rochester Pride Festival

Honorable Legislators:

I recommend that Your Honorable Body authorize a License Agreement with Bella Events Group, LLC for the 2026 Rochester Pride Festival to be held at the festival grounds at Beikirch Park, formerly Highland Park South, on July 18, 2026.

The Rochester Pride Festival has been held as a celebration of and for our community's LGBTQ+ members after Rochester's Pride Parade since at least 1996. Bella Events Group, LLC is organizing this festival as a ticketed, paid admission event in a County park. Under County Code, this commercial use of County park facilities requires the approval of the County Legislature.

Rochester Pride events have a long history of being held in July, instead of with most national events in June, dating back to the original July 1971 "Gay-In" picnic at Genesee Valley Park. Details of the 2026 Pride Festival are still being developed, but will include food and drink, vendors, booths for community organizations and businesses, and live music.

The specific legislative action required is to authorize a license agreement with Bella Events Group, LLC for the 2026 Rochester Pride Festival to be held at the festival grounds at Beikirch Park, formerly Highland Park South, on July 18, 2026.

This action is a Type II Action pursuant to 6 NYCRR 617.5(c)(21) ("minor temporary uses of land having negligible or no permanent impact on the environment") and is not subject to further review under the State Environmental Quality Review Act.

This license agreement is revenue generating and no net County support is required in the current Monroe County budget.

The records of the Office of the Monroe County Treasury have indicated that neither Bella Events Group, LLC nor its principal officer, Jenna Knauf, owe any delinquent Monroe County property taxes.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello

This agreement will provide for the day-to-day operation and management of a marina located in Irondequoit Bay Park West. The marina includes a boat launch, rental slips, refueling facility, wastewater pump out, "shore store" with minor supplies, snacks, drinks and ice, and boat cleaning and repair facility. This marina has been operated by Sutter's Marine, Inc. since at least 1995. The "shore store" and offices and fueling area were rebuilt and refurbished through a NYS Lake Ontario Resiliency and Economic Development Initiative (REDI) grant in 2020-2021, which also included a $41,000 contribution from the operator.

A Request for Proposals was issued and Sutters Marine, Inc. was the sole responder.

The specific legislative action required is to authorize the County Executive, or his designee, to enter into a license and operating agreement, and any amendments thereto, with Sutters Marine, Inc., 512 Bay Front South, Rochester, New York 14609, for the operation and maintenance of the marina located at Irondequoit Bay Park West, for the period of December 1, 2025 through November 30, 2030, with the option to renew for two (2) additional five-year extensions.

This action is Type II action pursuant to 6 NYCRR § 617.5(c)(21) ("minor temporary uses of land having negligible or no permanent impact on the environment") and (26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Monroe County Legislature - December 9, 2025

This agreement is revenue generating and no net County support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that neither Sutters Marine, Inc., nor its principal officer, Allan J. Sutter, President, owe any delinquent Monroe County property taxes.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello
Monroe County Executive

Subject: Authorize a Term Services Contract with EFPR Group, CPAs, PLLC for Professional Auditing Services Relating to the Department of Transportation Consultant Agreements

Honorable Legislators:

I recommend that Your Honorable Body authorize a term services contract with EFPR Group, CPAs, PLLC in an amount not to exceed $60,000 for professional auditing services relating to the Department of Transportation consultant agreements for the period of January 1, 2026 through December 31, 2028.

The Federal Highway Administration ("FHWA") and the New York State Department of Transportation ("NYSDOT") provide federal and state assistance to localities to reconstruct, rehabilitate, and maintain bridges, roads and related transportation infrastructure. The County contracts with consultants who are engaged to provide professional services related to preliminary engineering design, final design, and construction inspection and supervision. Major funding for those capital projects comes from one FHWA program in which the State shares a portion of the non-federal cost (Marchiselli Aid), and from other related FHWA programs. NYSDOT and FHWA administrative procedures require the County to obtain close-out audits for consultant agreements that exceed a certain dollar threshold (currently $300,000).

These close-out audits are to be performed by an independent Certified Public Accounting firm in accordance with Governmental Auditing Standards. The audits will be performed on an as-needed basis as projects that meet the required dollar threshold are completed. Historically, three to four audits are required each year at a cost ranging from $5,000 to $8,000 per audit, and the cost of each audit is reimbursed by New York State at the same reimbursement rate as the underlying capital project under audit.

A Request for Proposals was issued for this contract and EFPR Group, CPAs, PLLC was selected as the most qualified to provide this service.

Monroe County Legislature - December 9, 2025

The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract, and any amendments thereto, with EFPR Group, CPAs, PLLC, 100 S. Clinton Ave Suite #1500, Rochester, New York 14604, for professional auditing services relating to the Department of Transportation consultant agreements in an amount not to exceed $60,000 for the period of January 1, 2026 through December 31, 2028.

This action is a Type II action pursuant to 6 NYCRR 617.5(c)(26) ("routine or continuing agency administration and management") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this contract, consistent with authorized uses, is included in various capital funds, and any future capital funds, relating to the project to which the audited consultant agreement pertains. No additional net County support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that neither EFPR Group, CPAs, PLLC, nor any of its principal partners, owe any delinquent Monroe County property taxes. The principal partners of the firm are:

James I. Marasco, Partner
Douglas Zimmerman, Partner

Subject: Amend Resolution 157 of 2024 to Amend the Intermunicipal Agreement with the City of Rochester Regarding the City of Rochester's Use of the Monroe County Jail for the Detention of Non-Arraigned Detainees and Arrestees

Honorable Legislators:

This matter is being referred to Your Honorable Body at the request of Sheriff Todd K. Baxter.

I recommend that Your Honorable Body amend Resolution 157 of 2024 to amend the intermunicipal agreement with the City of Rochester ("City"), permitting the City to use the Monroe County Jail to detain non-arraigned detainees and arrestees, and to pay the County a nominal booking fee of $50 for non-arraigned prisoners, except in the case of a New York City warrant suspect being held at which time the rate shall be the U.S. Marshal Service's Detention Services Intergovernmental Agreement rate with the County of $175. All other terms and conditions are to remain the same.

Effective April 1, 2025, the Centralized Arraignment Part Court ("CAP") went into effect in which all non-arraigned prisoners held by any law enforcement agency in Monroe County will be held in the Monroe County Jail pending CAP arraignment. The County does not charge law enforcement agencies for this service. With the exception of the Rochester Police Department, all law enforcement agencies in Monroe County book their own prisoners prior to them being held at the jail for CAP. The City is included in the CAP plan, and as a result the amount charged to the City is reduced from $122.13 to the nominal booking rate of $50.00.

The amendment is necessary to change the fee structure charged to the City from the per-diem rate set forth in the U.S. Marshal Service's Detention Services Intergovernmental Agreement with the County ("USM IGA") of $122.13 per non-arraigned detainee and arrestee, to a nominal booking charge of $50 per non-arraigned detainee and arrestee, except in the case of a New York City warrant suspect being held at which time the rate shall be the USM IGA rate with the County of $175. This reduced fee rate shall be effective of April 1, 2025, the date CAP went into effect. The remaining terms of the resolution shall remain the same.

The project included roof replacement, odor control/ventilation replacement, a new solids grinder system, removal of existing heat system, painting of the interior, new lighting, new pumps with variable frequency drives, new motor control center / PLC's, flow monitoring, design of new bypass system, design of communications network to link the facility's operation to the Wastewater Treatment Plant, enhancement of existing alarm system, evaluation of high voltage panel, exterior masonry

improvements with pavement enhancements, and replacement of existing emergency generator fuel storage tank..

City of Rochester, Upland Water Conduit Study and Automation, Rochester, New York
Mr. Shrivastava was the Principal-in-Charge on this project. Larsen Engineers studied the condition of the City water supply system delivering up to 40 MGD, and evaluated various retrofit options to reduce future maintenance. Engineering designed included in-situ repairs of control valves and provided electrically operated motor controls for remote control. Larsen also provided engineering support during construction phase and coordination of startup training of the radio based control system to manage facilities within 30 miles of service area.

Greenkill YMCA Lodge, YMCA New York City
Mr. Shrivastava was Principal-in-Charge as a subconsultant to Lacina Heitler Architects. Larsen was responsible for site design and mechanical, electrical, and plumbing (MEP) services for the 5,500 SF lodge at the YMCA Greenkill camp site. Larsen also provided survey and mapping services for the new lodge site. Gold LEEDTM certification was obtained for the project; the design was based on obtaining maximum LEED points. Larsen Engineers was also responsible for the following LEED design features: Subsurface storm water infiltration; and water conservation measures such as low-flow showers and sensor-controlled, low-flow faucets. Also, use of recycled material, such as recycled concrete, as select fill; and use of fly ash in concrete. Larsen also performed process design of tertiary treatment plant with polishing via natural wetlands, as well as, design of a telemeter system for remote operation and control of pump stations at the treatment plant.

Environmental Facility Corporation (EFC) Green Innovation Grant Program (GIGP)
Larsen was successful in getting 100% funding for four communities, under the stimulus package energy conservation grants for sustainable green planning. A total of 294 applications were submitted for the Grant Program with only 54 awards being made. Larsen assisted in securing grants for each of the 4 clients who applied with us: Village of Medina, Town of Williamson, Village of Lyons, and Village of Elba (2009).

The extensive application included an engineering report which included projects to upgrade Wastewater Treatment Facilities to be more energy efficient and "Green". Larsen was authorized to design and oversee the projects. Examples of improvements implemented include green roofs, solar panels, a cogeneration unit, effluent-powered heat pumps, rainwater collection systems, and energy efficient lighting.

NYSERDA PON 0004: Energy Conservation Studies

Mr. Shrivastava was project manager working with several local municipalities in preparation of grant applications for NYSERDA's PON 0004 program. URGENT -L

November 7, 2025

To The Honorable
Monroe County Legislature
407 County Office Building
Rochester, New York 14614

Honorable Legislators:

I am submitting for your consideration and approval the proposed 2026 Monroe County Operating Budget.

The proposed 2026 County budget comes at a time of significant uncertainty, unlike anything we have faced in County government in recent years. Much of this stems from questions surrounding future federal government support, the rescission of funds previously appropriated by Congress, and the trickledown effect these cuts will have on County government. While the impacts of the "One Big Beautiful Bill Act" remain unclear, we anticipate that the loss of federal funding and programmatic cuts over the next 12-24 months will severely impact Monroe County's financial future.

Developing the proposed 2026 County budget amid such uncertainty has required a disciplined, cautious approach. With so many unknowns on the horizon, it is critical that every financial decision we make today protects the County taxpayers and the County's stability for tomorrow. Exercising restraint now is essential to safeguarding vital services, preventing future cuts, and avoiding layoffs in the coming years.

Despite these challenges, this budget supports my administration's priorities with investments in public safety and public health, while also maintaining our focus on economic and workforce development and quality of life improvements. The budget is a responsible, common-sense plan that recognizes the economic pressures that confront our community, and complies with the Monroe County Taxpayer Protection Act and the New York State property tax cap.

Overall, the 2026 proposed budget calls for $1,567,679,468 in spending, an increase of roughly 1.9% over the adopted budget of 2025. That spending growth is concentrated in two areas: employee payroll and benefits, and public assistance benefits and Medicaid. While the number of positions county-wide remains relatively flat in this year's proposed budget, recent collective bargaining agreement settlements and yearly step increases have raised all salary lines by $20.6 million. Increased spending for Public Assistance benefits and Medicaid accounts for an additional $20.1 million in operating costs.

Monroe County Legislature - December 9, 2025

Offsetting these increases, spending on contractual services and supplies is decreasing by a combined $20.2 million in 2026. The decrease in contractual services is primarily due to the one-time inclusion of $25 million of Anti-Poverty grant funding Monroe County received from New York State in 2025. While more than $24 million of that grant funding is still to be invested in 2026, it is not reflected in the 2026 proposed budget as it was allocated in 2025.

The proposed 2026 budget reduces the County property tax rate to historic low of $5.67 per $1,000 of taxable value – a decrease of thirty-six cents from the current year. This is the sixth tax rate reduction under my administration, resulting in the lowest property tax rate in this County's recorded history. Inclusive of this proposal, my administration's budgets have cut the tax rate a cumulative $3.12 per $1,000 of taxable value in six years.

We continue to build on the sound financial practices that have resulted in six credit rating upgrades since 2021, with Fitch Ratings affirming our bond rating at AA during our most recent review. Our outstanding credit rating can be attributed to the County's solid financial performance, conservative budgeting, and strong fiscal controls.

The 2026 proposed County budget makes new and critical investments in vital County services and programs, while remaining mindful of the possible impacts of potential federal funding cuts. First and foremost, we are improving our public safety and emergency response operations by investing in a new mass public emergency alerting system, MonroeAlert. This platform will distribute emergency messaging to the public via text message, phone calls, emails, and more, to alert residents of incidents that are immediately impactful to life and health.

Further strengthening our emergency response efforts, the Monroe County Department of Public Safety will develop and implement a new EMS dashboard, which will focus on building a patient-centric EMS system to allow the 17 EMS agencies in Monroe County to essentially operate like a single EMS system. Among other things, the EMS dashboard will alert 911 dispatchers to potential coverage gaps in the system, allowing redistribution of resources. The real-time data analytics that will come from the EMS dashboard will allow agencies to merge their data into in single platform, improving efficiencies and identifying potential weaknesses.

Beginning in 2026, the Office of Probation and Community Corrections will equip officers with body-worn cameras—a major step forward in transparency and accountability. This technology will help strengthen trust between officers and the individuals they supervise, while also providing valuable evidence and training resources to enhance officer safety and professionalism.

We continue to make significant investments in public health and wellness, with a focus on responding to the opioid crisis and improving health outcomes for people struggling with substance use disorders. This budget further supports efforts to combat the opioid crisis by funding the IMPACT team, the 24/7 Opioid Crisis hotline, and additional Naloxone distribution boxes

throughout the community to help prevent overdose deaths. It also invests opioid settlement funds into the second year of our "Call to Action" public education campaign, which is designed to reduce addiction misinformation, prevent accidental overdoses, and continue to improve awareness of Naloxone availability. Additionally, the Office of Mental Health will pilot a Peer Support Services Transportation program, which will support people in crisis who need transportation to local diversion services rather than going to the emergency room.

As previously mentioned, the Monroe County Department of Human Services received significant grant funding from New York State in 2025 – including $25 million for the anti-poverty grant "Project Prosper" and $3 million for the Monroe Ladder Demonstration project. Although these funds are not reflected in the 2026 proposed budget, most of these dollars remain available and will be invested next year to continue and complete this important work.

Lastly, the need for reliable childcare for families continues to grow throughout Monroe County. This budget will increase daycare funding by $11.2 million to account for a projected increase in enrollment, ensuring more families have access to childcare services they count on every day.

The fiscal uncertainty facing Monroe County is real, and the decisions made at the federal level in the months ahead will undoubtedly shape our financial future. This proposed budget reflects the discipline and foresight needed to navigate that uncertainty. By carefully balancing investment with restraint, we are positioning Monroe County to weather potential challenges without sacrificing the services and programs our residents depend on every day.

This budget is more than a financial plan—it is a roadmap for responsible governance during unpredictable times. It protects taxpayers, preserves core services, and continues to strengthen the foundation of our community. With your approval, we can ensure that Monroe County remains strong, stable, and ready to meet whatever challenges lie ahead—together.

The specific legislative actions required are:

1. Pursuant to Section C4-3 of the Monroe County Charter, schedule a public hearing on the 2026 Monroe County Budget and direct the Clerk of the Legislature to cause notice of said public hearing to be published at least once in one or more daily newspapers of general circulation in the County at least five (5) days before the date of said hearing and to cause a summary of said budget, as attached hereto, to be published with said notice.

2. Pursuant to Section C4-4 of the Monroe County Charter, adopt the Monroe County 2026 Budget after said public hearing having been held.

3. Establish the 2026 Classification, Compensation and Salary Schedule for employees of the County of Monroe, as contained in the 2026 Monroe County Budget.

I recommend that this matter receive favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello
Monroe County Executive

Subject: Authorize a Contract with Fluent Consulting Corporation for the Provision of Energy Aggregation Group Management Services

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with Fluent Consulting Corporation ("Fluent") for the provision of energy aggregation group management services for Monroe County ("the County") for the period of January 1, 2026 through December 31, 2026, with the option to renew for two (2) additional one-year periods. The cost to the County will be $0.00065 per kilowatt-hour (kWh) of electricity and $0.075 per decatherm (Dth) of natural gas.

Since 2001, the County has been authorized by the New York State Public Service Commission to operate as a municipal Direct Customer of the New York State Independent System Operators, Inc., which allows the County to procure natural gas and electricity for itself and members of a municipal energy aggregation group that currently includes sixteen (16) towns and villages, two (2) school districts, two (2) fire districts, the Monroe County Water Authority and the Rochester Genesee Regional Transit Authority. In 2025, Monroe Community College elected to participate in the energy aggregation group for its Brighton and Downtown Campuses. The energy aggregation group currently has approximately 1,700 accounts, of which over 700 belong to the County.

As part of this contract, Fluent will also monitor and schedule the daily nominations related to the County's natural gas and electric accounts as well as its aggregation pools to ensure that an adequate supply of reliable electricity and natural gas is delivered at the most cost-effective rate. Fluent will also provide back office accounting and invoicing support for the County and the aggregation group, as well as utility bill and tariff analysis on behalf of the aggregation group to ensure proper billing. The rates are $0.00075 per kilowatt-hour (kWh) of electricity and $0.085 per decatherm (Dth) of natural gas. The cost to the County, based on the current energy usage and number of accounts, will be approximately $105,000 per year.

Fluent has performed this service for the County for more than twenty years. A request for proposals was issued for this contract and Fluent was selected as the most qualified to provide these services.

The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract, and any amendments thereto, with Fluent Consulting Corporation, 325 Delaware Avenue, Suite 210, Buffalo, New York 14202, to provide energy aggregation group management services for Monroe County for the period of January 1, 2026 through December 31, 2026, with the option to renew for two (2) additional one-year periods. The cost to Monroe County will be $0.00075 per kilowatt-hour (kWh) of electricity and $0.085 per decatherm (Dth) of natural gas.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) ("routine or continuing agency administration and management, not including programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this contract is included in the proposed 2026 operating budgets of various County Departments, and will be requested in future years' budgets. The cost of these services is shared proportionately with the members of the energy aggregation group. No additional net County support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that neither Fluent Consulting Corporation, nor its principal officer, Michael J. Mastroianni, President, owe any delinquent Monroe County property taxes.

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Sincerely,

Adam J. Bello

Subject: Authorize a Contract with Barton & Loguidice, D.P.C. for the Preparation of a Local Solid Waste Management Plan

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with Barton & Loguidice, D.P.C. ("B&L") in the amount of $198,700 for professional design services for the preparation of a Local Solid Waste Management Plan for the period of January 1, 2026 through December 31, 2029.

Monroe County is the solid waste planning unit responsible for developing a Local Solid Waste Management Plan ("LSWMP") pursuant to Section 27-0107(1)(a) of New York State Environmental Conservation Law. The original Solid Waste Management Plan was completed in 1991, approved by Your Honorable Body through Resolution 198 of 1991, and approved by the New York State Department of Environmental Conservation ("NYSDEC"). An updated Final Local Solid Waste Management Plan, dated July 2015, was approved by Your Honorable Body through Resolution 259 of 2015.

The purpose of the LSWMP is to provide an educational tool to identify the path to pursue for managing solid waste generated in the County during a ten (10) year planning period. The LSWMP provides policy and program direction to reduce waste generation, increase recovery and decrease disposal in an economically and environmentally-sound manner that is consistent with New York State's solid waste management policy. It recognizes that the public, elected officials, local municipalities, NYSDEC, private waste collectors, and facility owners are all stakeholders in the current and future management of solid waste. This project will update the LSWMP for the current ten (10) year planning period.

Barton & Loguidice, D.P.C. was rated as the most qualified to provide these services.

The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract, and any amendments thereto, with Barton & Loguidice, D.P.C., 11 Centre Park, Suite 203, Rochester, New York 14614, for professional design services for the preparation of a Local Solid Waste Management Plan in the amount of $198,700 for the period of January 1, 2026 through December 31, 2029.

Honorable Legislators:

I recommend that Your Honorable Body accept a grant from the New York State Governor's Traffic Safety Committee in the amount of $51,690 for the Comprehensive Toxicology Testing in Driving Under the Influence and Driving Under the Influence of Drugs Program for the period of October 1, 2025 through September 30, 2026.

The purpose of this grant is to improve highway safety by expanding the forensic toxicology services provided by the Office of the Medical Examiner's Forensic Toxicology Laboratory in alcohol and drugged driving impairment cases. The Toxicology Laboratory provides alcohol and comprehensive drug testing as well as expert testimony in driving impairment cases. This grant facilitates this work by providing resources necessary for the laboratory to maintain its services, to perform method development and validation as needed to expand the scope of drugged driving testing to meet current needs based on drug trends, and to analyze regional trends in drugged driving. In addition, the grant provides training funds to enhance the expertise of analysts when testifying regarding the effects of drugs on driving performance. This will be the thirteenth year the County has received this grant. This year's funding represents an increase of $6,325 from last year.

The specific legislative actions required are:

1. Authorize the County Executive, or his designee, to accept a $51,690 grant from, and to execute a contract and any amendments thereto with, the New York State Governor's Traffic Safety Committee for the Comprehensive Toxicology Testing in Driving Under the Influence and Driving Under the Influence of Drugs Program for the period of October 1, 2025 through September 30, 2026.

2. Amend the 2025 operating budget of the Department of Public Health, by appropriating the sum of $5,760 into general fund 9001, funds center 5804020100, Forensic Lab/DUI.

3. Authorize the County Executive to appropriate any subsequent years of the grant award in accordance with the grant terms, to reappropriate any unencumbered balances during the grant period according to the grantor requirements, to make any necessary funding modifications within the grant guidelines to meet contractual commitments, and to enter into any amendments to extend the time period of the grant.

Monroe County Legislature - December 9, 2025

4. Should funding of this program be modified or terminated for any reason, the County Executive is hereby authorized to terminate or modify the program and, where applicable, to terminate or abolish some or all positions funded under such program. Any termination or abolishment of positions shall be in accordance with New York State Civil Service Law and, when applicable, the terms of any labor agreement affecting such positions.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Partial funding for this grant is included in the 2025 operating budget in the Department of Public Health, general fund 9001, funds center 5804020100, Forensic Lab/DUI. The appropriated amount will adjust the current funding to that established by the grant.

This grant is 100% funded by the New York State Governor's Traffic Safety Committee. No net County support is required in the current Monroe County budget.

These methods include: 1) self-report, requiring agency submission of three (3) different self-report instruments; 2) yearly outcome evaluation assessment of contract outcomes; and 3) expenditure review. These contracts will allow for the provision of a comprehensive range of youth services and programs by the not-for-profit agencies specified in Attachment A.

Subject: Authorize a Contract with Morrison Healthcare, a Division of Compass Group USA, Inc. for Food, Nutritional and Vending Service Management and Operation at Monroe Community Hospital

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with Morrison Healthcare, a Division of Compass Group USA, Inc. in an amount not to exceed $930,847 to provide food, nutritional and vending service management and operation for residents at Monroe Community Hospital ("MCH") for the period of January 1, 2026 through December 31, 2026, with the option to renew for four (4) additional one-year terms at $955,424, $980,738, $1,006,811, and $1,033,667 per year, respectively.

The New York State Department of Health ("NYSDOH") requires that adequate nutrition and clinical support for all residents of health care facilities is provided. Proper nutrition is crucial for this frail population. Morrison Healthcare has been the vendor for food services at MCH since 1996. Under their management, MCH has been able to provide for the nutritional needs of the residents in an appealing, cost-effective manner, while meeting rigorous NYSDOH regulations. Morrison Healthcare has proven through their years of service at MCH that they are able to continue to meet the challenges of providing for this diverse population. This contract includes all nutritional service management expenses, including management, labor, and fees, but does not include MCH personnel costs, nor the cost of raw food.

A request for proposals was issued for this contract with Morrison Healthcare, a Division of Compass Group USA, Inc., selected as the most qualified to provide this service.

The specific legislative action required is to authorize the County Executive, or his designee, to execute a contract, and any amendments thereto, with Morrison Healthcare, a Division of Compass Group USA, Inc., 400 Northridge Road, Suite 600, Atlanta, Georgia 30350, to provide food, nutritional and vending service management and operation for residents of Monroe Community Hospital, in an amount not to exceed $930,847 for the period of January 1, 2026 through December 31, 2026, with the option to renew for four (4) additional one-year terms at $955,424, $980,738, $1,006,811 and $1,033,667 per year, respectively.

Monroe County Legislature - December 9, 2025

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

Funding for this contract is included in the proposed 2026 operating budget of Monroe Community Hospital, hospital fund 9012, funds center 6202080000, Food and Nutrition, and will be requested in future years budgets. No additional net County support is required in the current Monroe County budget.

The records in the Office of the Monroe County Treasury have indicated that neither Morrison Healthcare, Inc., nor any of its principal officers, owes any delinquent Monroe County property taxes. The principal officers of the firm are:

Howard Weinstein, Division President, Morrison Healthcare
Christopher Carone, Regional Vice President, Morrison Healthcare
John Parillo, Regional Director of Operations

I recommend that this matter be referred to the appropriate committee(s) for favorable action by Your Honorable Body.

Subject: Authorize a Contract with LaBella Associates, DPC for Stormwater Planning and Engineering Term Services

Honorable Legislators:

I recommend that Your Honorable Body authorize a contract with LaBella Associates, DPC in a total annual aggregate amount not to exceed $100,000 for stormwater planning and engineering term services for the period of January 1, 2026 through December 31, 2026, with an option to renew for two (2) additional one-year extensions, with escalations for the extensions to be limited to an amount equal to the increase in the previous year's Consumer Price Index (U.S. City Average CPI-U from the Bureau of Labor Statistics).

Under Resolutions 373 of 2019, Your Honorable Body approved an intermunicipal agreement with the Monroe County Stormwater Coalition ("Coalition") to reduce stormwater pollution and protect water quality in Monroe County and to comply with Federal Phase II Stormwater Regulations set forth by the United States Environmental Protection Agency and the New York State Department of Environmental Conservation. There are twenty-nine (29) municipal members, including the County, that comprise the Coalition. There are occasions where a high level of planning and engineering support is necessary to evaluate regulatory issues and provide consulting expertise. This contract will allow the County and the Coalition to supplement their staffs with stormwater-specific expertise, on an as-needed basis, to assist with planning, technical support and GIS services related to stormwater issues throughout the County. Services may also include review, maintenance, and modifications of planning studies, engineering reports and regional stormwater initiatives.

This action is a Type II Action pursuant to 6 NYCRR § 617.5(c)(27) ("conducting concurrent environmental, engineering, economic, feasibility and other studies and preliminary planning and budgetary processes necessary to the formulation of a proposal for action, provided those activities do not commit the agency to commence, engage in or approve such action") and is not subject to further review under the State Environmental Quality Review Act.

I recommend that Your Honorable Body establish the Standard Work Day and Reporting Resolution for County Elected and Appointed Officials for Retirement Credit Purposes.

The Standard Work Day and Reporting Resolution ("Resolution") serves to establish standard work days for certain Elected and Appointed Officials for retirement credit purposes. Adoption of the Resolution is required by the New York State and Local Retirement System and governed by the New York Codes, Rules and Regulations, Title 2, Chapter VI, Part 315. The State regulations require that the Clerk of the Legislature post the Resolution on the County's website for thirty (30) days and file a certified copy of the Resolution with the Office of the State Comptroller within forty-five (45) days of its adoption. Per the instructions of the New York State Office of the State Comptroller's New York State and Local Retirement System ("NYSLRS") Pension Integrity Bureau, elected and appointed officials who are not active members of NYSLRS should not be listed on the Standard Work Day and Reporting Resolution for Elected and Appointed Officials. The specific legislative action required is to establish the Standard Work Day and Reporting Resolution for Elected and Appointed Officials for Retirement Credit Purposes.

This is a Type II Action pursuant to 6 NYCRR §617.5(c)(26) ("routine or continuing agency administration and management, not including new programs or major reordering of priorities that may affect the environment") and is not subject to further review under the State Environmental Quality Review Act.

This action will have no impact on the revenues or expenditures of the current Monroe County budget.

I recommend that this matter receive favorable action by Your Honorable Body.
